Class:	Young 227; Mondays, 2:30-4:20pm
Labs:	Young 222; Fridays, 11:30-12:20pm
	Fridays, 12:30-1:20pm

#### **CALENDAR DESCRIPTION:**

This experiential course builds on the knowledge and skills gained in CRIM 205. Students apply elements of case and behaviour management to criminal justice clients and evaluate the success of interventions. Students will further develop interviewing and report-writing skills. Pre-requisite: C or higher grade in CRIM 205.

#### **LEARNER OUTCOMES:**

After successful completion of this course, you will be able to:

- 1. Describe behaviour management strategies specific to a variety of situations and evaluate effectiveness of interventions.
- 2. Apply intervention techniques in a manner that supports individual differences, using appropriate problem-solving and goal-setting strategies.
- 3. Critique the effectiveness of intervention strategies.
- 4. Write professional reports consistent with legal and organizational requirements.
- 5. Use effective interviewing skills.

#### **REQUIRED READINGS:**

• All reading sources are available online and linked through the D2L. It is your responsibility to download or print out the materials as required. Handouts will also be used and will be distributed on the appropriate week for each. Please note that additional readings or handouts may be added by the instructor during the course.

### **COURSE CONTENT & SCHEDULE:**

The primary purpose of this course is to introduce students to general criminal behavioural scenarios and needs as they are experienced within criminal justice and human services related professions. Each Monday, students will be introduced to the concepts associated with that week's material. Lab sessions (Fridays) will be more skills based and time will be used to discuss specific skills related to behavioural management strategies and evaluate their effectiveness.

The assigned readings will play a significant role in helping you to master the subject matter of this course. It is important that each be read prior to the scheduled class as this is the assumption under which I will be instructing.

It is very important that you come to class prepared to discuss what you already know about that weeks subject matter through your experience in other courses, volunteerism, your work life or within your personal life. The purpose is to integrate all of what you have learned during your time at Camosun and apply it to practical behavioural scenarios faced when working within the criminal justice system.

# METHODS OF EVALUATING YOUR LEARNING

### 1. Participation (10%)

Regular attendance and active participation is required. It is expected that you will arrive on time, be attentive, non-disruptive, constructive and respectful. Any cellular phone use will not be tolerated and phones should be off and put away when in class. If you are using your phone during class you will be asked to leave.

You are expected to complete the assigned readings before coming to class. You will also be expected to find additional resources and information about your selected topic and create a ten minute discussion about your selected topic for the class. It is expected that this be pertinent and relevant to that weeks discussion and be a summary from a credible and useful source. Please provide the instructor with a copy of the original source document on the date you are to present. This additional resource and you presentation of it will make for 5% of your participation grade. Topics will be selected during the first week of the semester.

You are also expected to participate in class discussions and activities based on the readings. This is a key component of this course as this will be a more collaborative learning environment than you will be familiar with. Active and pertinent discussion and insights will make up the other 5% of the participation grade.

### 2. Individualized Learning Journal (50%)

This Journal is meant to be a reflection of your insights and observations throughout the semester. The purpose is to monitor your learning and integrate it within the other learning you have done during your other courses. The requirements are to

- 1. Have a minimum one page of insights or reflections on the subject matter for each week. (12 entries)
- 2. Outline and discuss your own behavioural modification experience (1-2 pages)
- 3. Outline a community or institutional based program that works in the case management and behavioural modification of individuals involved in the justice system. Discuss what type of behaviour modification is used and the effectiveness of the program (min. 2 pages)
- 4. Write a reflective essay on how you will be able to integrate the learning from this course with the learning you gained in the Case Management course for your future career in the Criminal Justice System. (min. 2 pages)

The grading for your Journal will be as follows (Total 115 points):

Weekly Entries: (x12) 5 points each. An entry receiving full marks would include a reflective insight into the material for that week that integrates the course reading, learning from other courses and/or personal insight/experience with issue from one volunteerism, work life or personal experiences.

- Outlining your own Behavioural Modification experience: 10 points. To receive full marks for this entry, you will want to implement a detailed analysis of the change you are making, give regular updates and outline goals and objectives for your behavioural change. This will not be graded on the success of the change you are attempting. The goal is to gain insight into the difficulty of altering seemingly maladaptive behaviours. Therefore, gaining a better understanding of the difficulty CJ clients might experience in the behavioural change process.
- Outline a community or institutional based behavioural modification program: 15 points. Full marks would entail a thorough description of the program and the targeted behaviours.
- Reflective Essay: 15 points. Full marks would describe, in detail, the connections between the Case Management course and this course. How does this information interact and enable client empowerment and community safety.

Formatting: 5 points

Spelling, grammar and sentence structure: 10 points

# **Due: April 12<sup>th</sup>, 2012**

#### 3. Critical Incident Report (10%)

You will view a sample critical incident that occurs in a prison setting. The assignment will be to take notes of the incident that you will witness in class and write a Critical Incident Report based on the information you observed during the incident. Please use the Critical Incident Report template provided on the D2L to complete this assignment.

Grading for this assignment will be based accuracy of details, pertinence of details, ability to use clear, concise report writing style and using professional, unbiased language. The template is in four sections and the grading for each will be as follows:

Background:	4 points
Incident:	7 points
Action taken by staff on scene:	7 points
Reporting staff:	2 points

### Due: February 18<sup>th</sup>, 2012

4. Exams (x2) (40%)

# Dates: March 4<sup>th</sup> and during final exam week

\*\*\*The midterm will be worth 15% of the overall course grade and the final will be 25% and will be comprehensive of the entire course.

# **INSTRUCTIONAL POLICIES**

#### 1. Attendance & Participation

Regular attendance and active participation is required. It is expected that you will arrive on time, be attentive, non-disruptive, constructive and respectful.

For example, using headphones, engaging in text messaging, looking at voice messages, surfing the internet or using any means of disengaging with the class and the learning process is not accepted in this class. You will be asked to leave the classroom setting.

### 2. Class Preparation

You are expected to complete the assigned readings before coming to class. This often becomes increasingly more difficult as the semester moves along and as the completion of assignments and preparation for exams takes a great deal of your time. I would strongly recommend that you use some type of daybook where you can keep track of each week assignments, readings, exams and other expectations being placed on you.

You are also expected to participate in class discussions and activities based on the readings.

#### 3. Late Penalty

All assignments must be completed and submitted on the date and at the time assigned. Late penalties are 10% per day starting from the time each assignment is due (This will be the beginning of the class on the due date unless otherwise noted). Extensions will be given if they are legitimately warranted and approved by me at least 48 hours in advance of the assigned due date. There will be a maximum of one extension per student for the semester.

#### 4. Plagiarism, Cheating & Academic Dishonesty

Please see the College calendar http://camosun.ca/policies/Educatio-Academic/E-2-Student-Services-&-Support/E-2.5.pdf

Plagiarism is theft!

#### 5. Course Completion Requirements

You **must** complete all evaluative requirements (two exams, learning journal, and the Critical Incident Report) to receive a passing grade in this course. Unfortunately, if you do not complete all requirements, you will receive and F grade. All late work must be handed in by the beginning of the final exam or you will not be allowed to write it.
