PSYC 256
PROJECT #1: SKILL ANALYSIS

The purpose of this assignment is to give you the opportunity to analyze your use of the helping skills that have been covered and practiced in class.

You will record a 15 minute session with a client. The session is focused on Stage 1: Helping the Client Tell Their Story. Given that this is stage 1, the helper should avoid confrontation. Milder challenging skills are appropriate.

Immediately following your session (while your memory is still fresh), take notes on your nonverbal skills. Also, **ask your client for feedback on your nonverbal skills**. This will help you in completing your write-up.

YOU are responsible for :

- ensuring you have a quiet place and privacy to conduct the session.
- ensuring the equipment is working/recording.
- proofreading your paper before handing it in
- ensuring the tape is cued up to the beginning
- completing the assignment on time
- putting your audio file in the D2L dropbox
- transcribing the **entire** 15 min session
- submitting hard copies of the transcript and your analysis

10% of your grade will be based on the quality of your helping skills, 10% of your grade will be based on the quality of your analysis/write-up. **20% of the final grade.**

PROJECT 1

Write-up

The write-up should include the following headings:

CLIENT

Type of problem the client has: work, relationship, future, physical, stress, etc. This is stage one in helping process. The description should be concise (approx 3 lines) and include core message(s) and client emotion

For each example, write out an appropriate response that you could have given.

PROJECT #2

ANALYSIS OF THE HELPING EXPERIENCE AND COURSE CONCEPTS

The purpose of this paper is to reflect on, and analyze, your experiences as a helper in this course in addition to the course concepts.

You are asked to share your thoughts/opinions on **the concepts, models and skills of helping**.

This paper requires original thought. Do not simply repeat a point made in this course. You need to move beyond description, definition and explanation to application of course content, integration of course content and/or conceptualization of the concepts, models and skills of helping in order to receive full marks. Marks are also assigned for clarity of writing – organization of your paper, grammar, accuracy of information, etc.

You can bring in your personal experiences - in class, in life, as a client, with clients to illustrate your points.

The paper should be approximately 1400 words, typed, double spaced, 12 point font. **Remember to include a word count at the end.**

It is a good idea to make use of various assignments completed in the course to assist you in writing this paper. If you use course assignments, include an appendix at the end of your paper. It is important that you keep these assignments.

Do not use your client's name in your paper (just an initial).

The following are the areas that should be addressed in your paper.

- 1) Introduction: Introduce why helping or the role of helper is important and what you'll be covering in the paper
- 2) Body: address each of the skills, concepts, or models that you think are important. Ensure that you have something substantial to say for each.
- 3) Conclusion: tie it all together by presenting the main themes that you feel are most important to helping, and/or an explanation of your newly developed helping style, and/or an explanation of your newly developed helping model.
