

School of Arts & Science
BIOLOGY DEPARTMENT
BIOL 150-H02
Human Anatomy
Winter 2014

COURSE OUTLINE

The course description is online @ <http://camosun.ca/learn/calendar/current/web/biol.html>

Please note: the College electronically stores this outline for five (5) years only.

It is **strongly recommended** you keep a copy of this outline with your academic records.

You will need this outline for any future application/s for transfer credit/s to other colleges/universities.

1. Instructor Information

Instructor:	Dr. Kate Pettem
Office Hours:	<i>By appointment</i>
Location:	F352
Phone:	250-370-3445
Email:	pettemk@camosun.bc.ca
Website:	http://online.camosun.ca/ (D2L)

2. Intended Learning Outcomes

(No changes are to be made to these Intended Learning Outcomes as approved by the Education Council of Camosun College.)

Upon completion of this course the student will be able to:

1. Describe, using anatomical terminology, the human body at the tissue, organ and organ system levels.
2. Locate and identify gross and microscopic anatomical structures associated with the 11 human organ systems in slides, models, photographs, diagrams and dissections.
3. Interpret the relationships between anatomical structures in sectional planes of the human body, and describe these relationships using regional and directional terminology.
4. Relate anatomical structures to their basic functions and predict how changes in one would logically be expected to result in changes in the other.
5. Locate and identify surface anatomical structures by palpation.
6. Define anatomical and physiological terms, and apply this terminology in the context of human health science.

3. Required Materials

Text

Kapit and Elson (2014) *The Anatomy Coloring Book*, 4th Edition (Benjamin Cummings)

Note: Coloring assignments WILL be part of the assessment for this class. I highly recommend purchasing a set of both pencil crayons (24 colors) and thin-tipped markers (lighter colors are best) for this course if you don't already have some.

Lab Manual

Biology 150 Lab Manual (Winter 2013), Camosun College.

Lecture Outlines

Lectures will be delivered in a PowerPoint format. PowerPoint slides will be made available on the Biology 150 D2L website. These may be used or printed at the student's discretion to help follow the lectures.

Additional Recommended Resources

There are a multitude of free and paid resources for studying anatomy. Depending on your learning style, you may want to make use of many, some or none of them in addition to the required texts and the provided lecture slides. If you would like extra resources, here are a few I would recommend:

- The library's copies of anatomy textbooks (or pick up used ones at thrift stores for cheap!)
- 'Peggy's Website': <http://hunterp.disted.camosun.bc.ca/>
 - This site (developed by a Camosun instructor) contains annotated photographs of most of the models we will use in the lab and is a great review / preparation resource.
 - The site also contains links to other anatomy resources, including pronunciation dictionaries and tissue slides
- Anatomy TV: <http://camosun.ca.libguides.com/content.php?pid=199471&sid=1928173>
 - In the first column click the link for Anatomy.TV
 - This is a resource available to Camosun students, so you will need to sign-in with your C#
 - The site contains models which can be manipulated to add/remove layers, identify components, etc

4. Course Content and Schedule

Lectures: Mon., Wed., Block 1, Stelly's High School

Lab: Mon. 6:30 PM – 9:20 PM, Lansdowne Campus, Fisher Building Rm. 244

Course Content: See Last Page

5. Basis of Student Assessment (Weighting)

Lab:

Colouring	5%
Lab Quizzes	10%
Lab Assignments:	10%
Lab Final Exam	15%

Lecture:

Assignments / Participation:	5%
Lecture Midterm 1:	15%
Lecture Midterm 2:	15%
Lecture Final Exam:	25%

6. Grading System

(No changes are to be made to this section unless the Approved Course Description has been forwarded through the Education Council of Camosun College for approval.)

Standard Grading System (GPA)

Percentage	Grade	Description	Grade Point Equivalency
90-100	A+		9
85-89	A		8
80-84	A-		7
77-79	B+		6
73-76	B		5
70-72	B-		4
65-69	C+		3
60-64	C		2
50-59	D	Minimum level of achievement for which credit is granted; a course with a "D" grade cannot be used as a prerequisite.	1
0-49	F	Minimum level has not been achieved.	0

Temporary Grades

Temporary grades are assigned for specific circumstances and will convert to a final grade according to the grading scheme being used in the course. See Grading Policy E-1.5 at camosun.ca for information on conversion to final grades, and for additional information on student record and transcript notations.

Temporary Grade	Description
I	<i>Incomplete</i> : A temporary grade assigned when the requirements of a course have not yet been completed due to hardship or extenuating circumstances, such as illness or death in the family.

IP	<i>In progress:</i> A temporary grade assigned for courses that, due to design may require a further enrollment in the same course. No more than two IP grades will be assigned for the same course. <i>(For these courses a final grade will be assigned to either the 3rd course attempt or at the point of course completion.)</i>
CW	<i>Compulsory Withdrawal:</i> A temporary grade assigned by a Dean when an instructor, after documenting the prescriptive strategies applied and consulting with peers, deems that a student is unsafe to self or others and must be removed from the lab, practicum, worksite, or field placement.

7. Recommended Materials or Services to Assist Students to Succeed Throughout the Course

LEARNING SUPPORT AND SERVICES FOR STUDENTS

There are a variety of services available for students to assist them throughout their learning. This information is available in the College calendar, at Student Services, or the College web site at camosun.ca.

STUDENT CONDUCT POLICY

There is a Student Conduct Policy **which includes plagiarism**. It is the student's responsibility to become familiar with the content of this policy. The policy is available in each School Administration Office, at Student Services, and the College web site in the Policy Section.

Plagiarism

Plagiarizing is appropriating the work of another or parts or passages of another's writing (including the ideas or language) and passing them off as the product of one's own mind or manual skill. **Plagiarism will not be tolerated.** Plagiarism, **including the copying of any part of assignments or lab assignments**, is a serious offence and is considered to be academic misconduct. In some cases, the lab instructor may prefer a lab assignment to be written as a group. In such cases, handing in one assignment for the group will be acceptable. Otherwise, lab assignments handed in by individuals are expected to be individually prepared.

Cheating

A student caught cheating on an exam will forfeit all credit for that exam and perhaps for the course. Cheating is a serious offence and is considered to be academic misconduct.

Cheating includes, but is not limited to, using unauthorized materials in a quiz/exam and providing information to another person regarding exam content.

The consequences for cheating and plagiarism are outlined by Camosun College policies (see <http://camosun.ca/about/policies/education-academic/e-2-student-services-&-support/e-2.5.pdf>)

and <http://camosun.ca/about/policies/education-academic/e-2-student-services-&-support/e-2.5.1.pdf>) and may be severe.

Lab Safety

Under **NO** circumstances will students ingest food or drink in the lab. Taking oral medication or applying makeup or lip balm in the lab is also prohibited. You may leave the lab at a convenient time if you are thirsty, need a snack or require medication.

Failure to adhere to the lab safety principles will result in the inability to enter the lab, or expulsion from the lab, and the subsequent **loss of credit** for that lab, including any pre-lab assessment credit.

Laboratory Attendance

The laboratory experience is critical to the course objectives and so attendance throughout the entire laboratory session is mandatory and will be noted. Failure to attend the lab, lateness in arriving or leaving the lab before its scheduled finish time will result in forfeiting credit for that lab, including any written assignments or assessments. If a lab session is missed, another student's data **may not** be used to complete a lab assignment for credit. Exceptions can be made **at the instructor's discretion** in legitimate cases of emergency (e.g. illness); in such cases the instructor must receive **advance notification** and **documented evidence** of the situation (e.g. medical certificate) to grant approval for any accommodation. If you miss a lab, **you are still responsible for material in that lab that may appear on subsequent quizzes and tests.**

Missed Exams and Assessments

Lab quizzes and the exam must be written at the scheduled times. Under no circumstances will a lab make-up exam be administered. However, it is understood that emergency circumstances occur (e.g. illness or emergency in the immediate family); for such circumstances accommodation may be offered at the discretion of the instructor, provided (a) the instructor is notified **in advance** of the exam (not after) and (b) the student provides documented evidence of the circumstance (i.e. medical certificate). Without exception, the accommodation will be in the form of adjusting the weighting of the final lecture exam to make up the missing marks. In such cases, the final lecture exam will include extra questions to examine knowledge of the untested subject matter.

Lab quizzes will occur at the beginning of each laboratory session (except the first). If you are late and the class has finished writing the quiz, **you will not be eligible to write the quiz and will receive a mark of zero.** However, at the end of the term, your single lowest quiz mark will be omitted from your final quiz mark grade (10% overall), so a single missed quiz or low mark will not adversely affect you. Under no circumstances will make-up quizzes be administered.

For a midterm missed for a medical or family emergency, a make-up exam may be administered, at the discretion of the instructor, provided that (a) the instructor is notified in advance of the exam (not after) and (b) the student provides documented evidence of the circumstance (i.e. medical certificate).

For in-class assignments / participation: these activities will take place during class and may require you to prepare or read before coming to class. Your mark will be based on your preparedness and participation during the activity. If you are absent on the day of an in-class activity (without a valid medical or emergency excuse) you will receive a zero for that activity. Content from in-class activities is also testable, so be sure to catch-up with a classmate if you do miss one.

Please note: holidays or scheduled flights are not considered to be emergencies!

Late Penalties

Any lecture assignments must be handed in on the scheduled date **at the start of class**. Regular assignments will be graded but marks equivalent to 10% of the total value of the assignment will be deducted per day past the deadline. Laboratory assignments are to be completed on D2L after your laboratory period. Assignments for each lab will open on the day of the lab and will remain open for exactly one week. Assignments may be repeated as many times as you wish if you do not score 100% on your first try. Once a lab assignment closes on D2L, **NO late lab assignments or changes will be accepted for any reason.**

Biology 150 – W2014 - Course Schedule

(Note: Scheduled dates are subject to change)

Topics may be added or deleted depending upon time constraints

Week	Week of:	Unit: Lecture Topic	Labs
1	Feb. 10	No class Monday (Family Day) 1: Introduction/ Tissues	No Labs (Family Day)
2	Feb. 17	2: Skeletal System	Introduction/Lab 1 Histology
3	Feb. 24	3: Articulations	Lab 2 Axial Skeleton
4	Mar. 3	3: Muscular System	Lab 3 Appendicular Skeleton
NO Lectures or Labs Weeks of Mar. 10 and Mar. 17. High School Spring Break!			
5	Mar. 24	4: Cardiovascular System 5: Lymphatic System	Lab 4 Muscles of Axial Skeleton
6	Mar. 31	MIDTERM 1 (Monday) 6: Respiratory System	Lab 5 Muscles of Appendages
7	Apr. 7	No class Monday (Stelly's PD) 7: Digestive System	Lab 6 Cardiovascular and Lymphatic Systems
8	Apr. 14	8: Urinary System 9: Reproductive Systems	Lab 7 Respiratory and Digestive Systems
9	Apr. 21	No class Monday (Easter Monday) 10: Nervous System	No Labs (Easter)
10	Apr. 28	10: Nervous System	Lab 8 Urinary and Reproductive Systems
11	May 5	10: Nervous System MIDTERM 2 (Wednesday)	Lab 9 Central Nervous System
12	May 12	No class Monday (Stelly's PD) 11: Sensory Organs	Lab 10 Peripheral Nervous System, Eye and Ear
13	May 19	No class Monday (Victoria Day) 11: Sensory Organs	No Labs (Victoria Day)
14	May 26	12: Integumentary System	Lab 11 Integumentary System and Articulations
15	June 2	13: Endocrine System	LAB FINAL EXAM
16	June 9	LECTURE FINAL EXAM (3hrs) (6PM, Camosun, Room TBA)
