It is impossible to gauge the speed at which we will travel through this minefield, but you will always know where we just were and where we are about to go. If you are ever feeling lost either come and see me or call the SPCA.

5. Basis of Student Assessment (Weighting)

(This section should be directly linked to the Intended Learning Outcomes.)

Each course takes countless hours of development by our Research and Development team at the Six Mile Pub. Consultation with thousands of former students allows me to decide just how students in each term should be graded. Based on this, I then test-run assignments on laboratory mice to see how the assignments work and are fair. This is not easy. Finding mice that work the way students do, is tougher than it looks.

Each assignment must be completed. If you do not complete an assignment you do not pass the course. Simple as that. We have a number of laboratory mice that missed one assignment, and we had to execute them.

Exams – There will be two. They will be true/false, multiple choice, and short answer. If you miss an exam, you fail... nice and simple.

1st Exam – October 16th 25%

2nd Exam – During the final exam period 40%

Case Report – 25%. Talk about fun! You get to partner up with someone you don't even like and make a case presentation. Here's how this works: you and your partner(s) have to find a case that covers one of the defences or primary issues we discuss in class. It must, in other words, be relevant to the class and enlighten us on a specific issue we deal with in class. It has to be a case that is not in the case book or text book or that anyone else in class is using. In other words, don't leave picking your case until late in the term. Then you present your case to the class in a concise, understandable, 5 minute presentation. All you have to do is tell us the facts, the law, and the decision of the case you found. You must sign up for your presentation day ASAP or a date will be assigned to you. The case must be relevant to what we are doing around that time so make sure you check with me with respect to the case you are going to use.

On the day of your presentation you must hand in to me a copy of the case AND a one page summary (headnote) of the case. It must be a concise, accurate, headnote on the case itself. This is NOT a research assignment. This is an assignment that tests your ability to summarize a case into a concise document. It must be one page, 12 pt, properly formatted, with a cover page. NOTE: you must pick a case that is long enough to be summarized into one page. A three page case isn't. A fifteen page case is.

Peer Assessment – 10%. Even more fun! You get to rip apart fellow students. Okay, not so much rip apart but give constructive feedback. You are required to do two of these during the term (totaling 10%) and they are based on the Case Reports other students do. You will be given a sheet to fill in, which includes two questions you must ask of the group doing the presentation.

Mock Trial – One of the highlights of the term (other than the scintillating lectures) is the mock trial. This takes place in the oldest courthouse in B.C. Our mock trial will as accurately as possible resemble a real murder trial. Students will be the judge, lawyers, witnesses, jurors, and the accused. More details on this to follow. We will discuss a date in class but the likely date is **November 27th**.

6. Grading System

(<u>No</u> changes are to be made to this section unless the Approved Course Description has been forwarded through the Education Council of Camosun College for approval.)
