Assignments

Important Note: Students are expected to complete their own labs, term paper and other assignments. Copying answers or using works from others are not permitted. In small group assignments, all students are expected to participate and contribute towards the completion of the assignment. Students found violating the Academic Conduct Policy will be assigned an F for the assignment or the course. A doctor's certificate or equivalent is required before a supplementary examination is permitted.

Lab Exercises (30%): a total of four labs will be assigned during the semester and the best three will be counted for marks. Each lab carries equal marks. See Schedule of Activities for their due days. Late labs are not accepted.

Term Paper or project (24%): Students are encouraged to form a small group of 2-3 or individually to conduct research on a critical development issue. Possible paper topics will be provided at the beginning of the course. All paper topics have to be approved by the instructor. The completed paper, with no more than 2,000 words (8 to 10 double-spaced pages), should be typewritten and submitted by the due day (see schedule of activities). Late papers will not be accepted unless prior **approval** by the instructor is obtained. Marks for late papers are to be deducted by two percent per day.

On-line discussions (10%): A total of eight on-line discussions will be posted for each of the lecture topics. The discussion forums will be closed after two weeks.

Tests

Test 1 (18%): The first test will be held in week 6 and based on the reading, lecture, and lab materials covered in the first six weeks of the course.
