  - Why did you choose this topic?
  - What is the objective of the assignment, what do you intend to explore/find out?
  - What are some of the **types** of sources you intend to use (in **general** terms)?

#### 2) Provide, in Chicago Manual of Style (how-to at:

http://camosun.ca.libguides.com/chicago or 3 primary sources

- **Primary sources** are the basic materials for conducting original research in a given discipline. For the historian, they include documents such as letters, diaries, autobiographies, newspaper and magazine articles, speeches, eyewitness accounts, photographs and sketches, and census data. For the scientist, primary sources might be notes on an experiment or a sheet of calculations. For the literary critic, the primary source is the text of the poem, play, or story. In the art of argument—the business of the critical essay—fair and compelling evidence is needed in order to substantiate any claim, whether it be the interpretation of a poem or a judgment on a historical figure. Primary sources constitute the best **evidence**. Original research is only made possible by collection, discovery, and recovery of primary documents and materials.
- o 2 secondary sources

Secondary sources are books and articles and documentaries that draw on primary sources and interpret them. When you are first researching a topic of interest, the fastest way to come to an understanding of your subject is to read secondary sources. Critical reading of these materials will also give you a sense of how other researchers have approached your research topic, which may give direction to your own argument—either toward or away from established perspectives or conclusions. Academic writing will require you to consult secondary sources to support and direct your own analysis. Most important to the student researcher, good secondary sources will lead you to the primary documents and resources noted in a bibliography or footnote. (source: RMC POE 206 CD)

#### o Note: Wikipedia is not an acceptable academic source

#### o You will attach marked outline to major paper

#### (e) Test # 2 (15%) Nov. 18

#### (f) Major paper, in essay format (25%) Nov. 20

- Essay length: 6-8 pages (TITLE PAGE, FOOTNOTES AND BIBLIOGRAPHY are extra pages)
- A note on being succinct:
  - "I have made this letter longer than usual because I lack the time to make it shorter." -- Blaise Pascal
- Be sure to keep a copy of your essay on disc or hard drive.
- o Attach marked outline to major paper when you submit it.

Choose **one** of the following local governments and **one candidate** in that election to follow in the Fall 2014 elections:

- Central Saanich
- Colwood
- Duncan
- Electoral Area A
- Esquimalt
- Highlands
- Langford
- Metchosin
- North Saanich
- Oak Bay
- Sidney

- Sooke

- Any of the Gulf Islands in the CRD

Examine in terms of:

- Very brief history of establishment of its local government
- Category of local government
- Statistics (population, size)
- Adjacent local governments/reserves
- Current council

Analyze the election in terms of a current issue. What is the issue?

- Who is involved?
- Are there cross border municipal, band, and/or regional issues at play? Which?
- Are there ngo's/community organizations involved? Which?
- Are other levels of government involved (either with or without the citizens' approval) in the issue you identify? Which?
- What does your candidate say about the issue? Are their comments realistic?

**Election Results** 

- What are the results
  - #s of votes per candidate
  - o voter turnout
- Did your candidate win or not? Analyze the success or failure of the candidate.

What are some lessons learned about democracy and local elections based on this case study? (This forms an important part of your paper as it allows you to go beyond simply reporting information but to also analyze what happened. That is the difference between a low B and an A paper.)

You should attend at least one **"All Candidates Meeting"** at some point during the election. Be sure to **incorporate course terminology and concepts** in your paper. This will demonstrate your comprehension of course material and your ability to apply what you learned.

#### (g) Research Paper Presentation (5%) Dec. 2 or 4

Everyone will provide a 5 minute presentation to the class about their paper.

- Explain your topic,
- What were you were trying to determine
- How did you approach your research
- What did you conclude
- Explain any points of interest regarding the **process of undertaking research** for the paper

You will have to time your presentation carefully in order that everyone can complete this assignment. You will be graded on content (**all** points above addressed), timing, and speaking (good clarity and volume).

#### (h) Attendance for Presentations (no partial marks) (5%) Dec. 2 and 4

It is expected that everyone attends class on the days others are presenting their findings. No partial marks will be given (unless you have a Doctor's or Counsellor's note). You must attend all presentations to receive the mark. Attendance will be taken.

Note that none of these assignments is group work. They are each to be done individually. You are encouraged to ask librarians for help with your research. Be sure to read the College's policy on plagiarism at <u>http://camosun.ca/about/policies/education-academic/e-2-student-services-&-support/e-2.5.pdf</u>
