FINAL EXAM

#### **5. Basis of Student Assessment:**

- (a) Assignments: 40% For each class, there will be two assignments—one theory and one ear-training—that deal with the musical concepts covered in class. (Through taking this two-pronged approach of theory and ear-training, the hope is to equip you with a deeper musical literacy. The idea is for you to not only be able understand the music you see on the page from a theoretical standpoint, but that you will also be able to form an aural picture of the music you see. In other words, this class isn't just about being able to "think about music" but about being able to "think in music". ) Anyway back to house keeping stuff re: assignment: All assignments will be due the following class. The ear-training assignments will be marked by the students using the answer key in the book, and handed in with the written theory assignments. It will be expected for students to make any needed corrections to their graded theory assignments—while failure to do so will not adversely affect your grade, making these corrections will certainly help while preparing for the Mid-Term and Final Exams. In addition to the weekly theory and ear-training assignments, there will be a few creative projects (short compositions, listening journals, etc). These will be dealt with in more detail throughout the term. In an attempt to be as magnanimous as possible, your two worst assignments will not be counted towards your final grade.
- (b) Quizzes: Covered under "Assignments"
- (c) **Exams: 40%** Mid-Term (worth **20%** of total grade) and Final Exam (worth **20%**). For both the Mid-Term and Final Exams, there will a written theory component and an individual ear-training component. The individual ear-training component of the Mid-Term will take place on Tuesday October 20<sup>th</sup> during class hours, with the written theory component taking place on Thursday October 22<sup>nd</sup> during class hours. Both the individual ear-training and written theory components of the final exam will take place during Camonsun's exam week—stay tuned to D2L for date/time/location, as well an information for signing-up for the individual ear-training assessment.

- (d) **Participation: 10%** I firmly believe that music theory is music making. The best way to establish a strong theory and aural skills foundation is through playing and exploring theory concepts with our voices and instruments. Therefore, we will be doing a lot of playing, singing, and exploring in this class.
- (e) Attendance: 10% Therefore, you need to be here.
