Course syllabus

Topic 1. Canada's regions

This topic introduces Canada's major geographical regions. These regions are largely defined from a historical and physical perspective. It illustrates the uniqueness and interconnectedness of places that together make up the country of Canada

Topic 2. Canada's physical geography

Here we present Canada's physical environment. Canada's large geographical area contains a wide variety of physical settings. This has profound implications for settlement, resource use, and society in general

Topic 3. Canada's historical geography

This topic explores Canada's history of settlement. It provides an overview of native settlement, European colonization and early immigration. It sheds light on the challenges of national integration

Topic 4. Population

We examine population distribution patterns and demographic trends. Some of the themes are natural births, urbanization, contemporary immigration and ethnicity

Topic 5. Canada's economic geography

We analyze the nature of Canada's economy from a geographical perspective. We outline spatial patterns of resource production, industrialization, service production and trade

Topic 6. Canada's regions: Ontario and Québec

This is central Canada. We examine the economic and social characteristics of these core regions.

Topic 7. Canada's regions: The Prairie Provinces and British Columbia

We examine the characteristics of these new growth regions.

Topic 8. Canada's regions: The Atlantic provinces

The Atlantic provinces represent a slow-growth region. We investigate the processes of social and economic challenges facing this region.

Topic 9. Canada's regions: The Territorial North

The Territorial North is both a resource frontier and the homeland of northern Aboriginal peoples. We investigate the challenges faced by these communities.

5. Basis of Student Assessment (Weighting)

(a) Assignments

4 Class exercises (8% each)	32%
-----------------------------	-----

(b) Exams

2 Tests (midterms) (24% each)	48%
-------------------------------	-----

(c) Other

Research project	20%
------------------	-----

6. Grading System

Standard Grading System (GPA)

Percentage	Grade	Description	Grade Point Equivalency
90-100	A+		9
85-89	A		8
80-84	A-		7
77-79	B+		6
73-76	B		5
70-72	B-		4
65-69	C+		3
60-64	C		2
50-59	D	Minimum level of achievement for which credit is granted; a course with a "D" grade cannot be used as a prerequisite.	1
0-49	F	Minimum level has not been achieved.	0

Temporary Grades

Temporary grades are assigned for specific circumstances and will convert to a final grade according to the grading scheme being used in the course. See Grading Policy E-1.5 at camosun.ca for information on conversion to final grades, and for additional information on student record and transcript notations.

Temporary Grade	Description
I	<i>Incomplete:</i> A temporary grade assigned when the requirements of a course have not yet been completed due to hardship or extenuating circumstances, such as illness or death in the family.
IP	<i>In progress:</i> A temporary grade assigned for courses that, due to design may require a further enrollment in the same course. No more than two IP grades will be assigned for the same course. (For these courses a final grade will be assigned to either the 3 rd course attempt or at the point of course completion.)
CW	<i>Compulsory Withdrawal:</i> A temporary grade assigned by a Dean when an instructor, after documenting the prescriptive strategies applied and consulting with peers, deems that a student is unsafe to self or others and must be removed from the lab, practicum, worksite, or field placement.
