 2. There is one 1.5 hour lab per week before the class
- See last page for the schedule and topics this course will address

5. Basis of Student Assessment (Weighting)

Quizzes (5%)

Online quizzes on the readings and lectures. The link is on D2L. Students must register first. They are posted weekly and must be completed each week. The student is responsible for checking and adhering to the deadline. Quizzes are only accessible from a Camosun college campus.

Tests: Midterm 30% Final 30%

All tests are based on information from the lectures, lab activities, and assigned readings. Tests are not cumulative. These tests will consist of multiple choice, short answer, and paragraph answer questions.

Make-up tests for missed tests will only be allowed with proper documentation. You must contact the instructor the day of the test, and provide documentation, within 7 days of the missed test date to be eligible for the make-up test.

Lab Assignments: (25%)

You must be in attendance to participate in the lab. There is a written assignment for each lab. The assignments are due at the beginning of the following weeks lab, but are typically handed in the same lab they are completed. When handing in be sure to include name, student number and lab section. Some may be submitted into a drop box on D2L. Lab make-ups will only be allowed with a doctor's note justifying the absence.

Late Policy: Because labs involve group activities, tardiness will not be tolerated. If a student is late for a lab, marks will be deducted from the lab assignment for that week. These marks will not be deducted under extreme cases and with proper documentation.

Research Report Assignments (10%)

You will be conducting research in this course. It will involve designing an experiment, collecting data, and analyzing data. The write up for this research will be completed as assignments over the 14 weeks of the course. You will be using APA style for these assignments. They will be submitted into the drop boxes on D2L. Further details will be discussed in Lab.

Late work will only be accepted in extreme cases. Please schedule your time to meet all due dates. Assignments not received by the deadline will be subject to penalty marks.

Weekly Homework

In addition to attending the class and lab you will be responsible for homework on a weekly basis. It includes; assigned readings, weekly research report assignment, and online quiz.
