Other: Web-notes from my website (listed above). They will be available as PowerPoint slides for students who are interested in printing out lecture material prior to class. Please note that in the event that I am unable to post the notes to the website at least 24 hours prior to class, that I will bring a hardcopy of the notes to class with me. It is important to state that web-notes ONLY cover information from overheads/Power Point...they represent only about 1/3 - 1/2 of the information presented in lecture, and do not include assignments, diagrams, practice examples, etc. Therefore, if you miss a class, please make sure that you can get the notes from a friend

Basis of Student Assessment (Weighting)

Assignments:

There will be 11 of these in total asking you to apply behavioural concepts to a case study (observations in field, case files, etc.). They take approximately 1 hour to complete, and you will have five days to complete them at home. The top 10 scores count for 10% each toward your final grade for a total of 100% from assignments.

***In order to make time more manageable for you, I've broken the research paper into three assignments, so it isn't separate. This way, rather than a big paper at the end of the course, you've done the same work and met the same learning outcome in a series of assignments.

Grading System

- Standard Grading System (GPA)
- Competency Based Grading System
