Dec 4-7	Dec 4-7			

Please Note: this is the 'working' timetable. Any changes required will be announced in class.

Attendance is expected and required including attendance to all lectures, labs and any related activities.

If you miss a lecture or lab it will be your responsibility to acquire all information given during a missed class, incl. notes, hand-outs, assignments, etc. It is very important that you work with other students in the class to help each other in obtaining information/materials when a lecture or lab

has been missed. This is important as you will want copies of the material presented in class as well as explanations from your cohort with regards to the materials presented.

Due to the significant amount of in-class learning in this course and importantly that each class builds upon the skills learned in the previous one, missing more than 2 classes per term (this includes both the lectures and labs combined) may seriously compromise your ability to pass this course.

Quizzes will be cumulative in testing.

NOTE: All assignments, including any 'redos' must be handed in at the scheduled due date & time. Any exceptions to this requirement must be requested <u>in advance</u> and will only be granted in extraordinary circumstances.

Late assignments will be marked as incomplete and therefore receive a value of zero (0) and may not be resubmitted.
