5. Basis of Student Assessment (Weighting)

Assignments

Important Note: Students are expected to complete their own labs, projects and other assignments. In small group projects or labs, all students are expected to participate and contribute to their completion. Copying answers or using works from others are not permitted. Students found violating the Student Conduct Policy will be assigned an F for the assignment or the course.

Labs (24%): a total of 4 labs will be assigned during the semester. Each lab will carry equal marks. All labs are to be submitted as scheduled (see schedule of activities). Students can work individually or in small group of 2 but **must form a new group each time or they will not receive marks**. Students who did not attend the lab session will not be allowed to participate in any groups. Late labs are subject to a penalty of 2% per day and will not be accepted after one week of the lab day.

Project (23%): The themes of this year focus on achieving development in Sub-Saharan Africa. Students are encouraged to form a small group of 2 or individually to develop either a research project or a service learning activity. An outline of the project (**5%**) has to be submitted for approval (see

schedule for due day). All research projects or service learning activities have to be submitted in the form of power-point (**18%**). The power-point project will be evaluated by its content (included adequate description and analysis), organization of materials, appropriate use of photos, graphs, maps, etc, and proper citation of sources and consistent design. *Students conducting an extensive service learning project may be allowed to shift a maximum of 10% from another assignment. The request must be made in writing as part of the project's proposal. Consult the instructor for details*

In-class Participation (5%): Participation is an essential part of the course. Students are expected to participate in class activities and discussions and answer questions in-class or on-line (by using D2L).

Presentation (8%): Each individual or group is required to present a 10-15 minute oral summary of their project as scheduled. The order of presentation will be assigned by the instructor according to the topics. The evaluation of the presentation is based on speaking style (clarity, pace and engage audience), content (description and analysis), organization and time management. Students are encouraged to seek advice from the instructor or counsellors early in the semester to develop a plan if they have any concerns about oral presentations.

Tests

Test 1 (20%): The first test will be based on the reading, lecture and lab materials covered in the first half of the course. Review questions will be provided. See schedule of activities for the test date.

Test 2 (20%): The second test will be based on the reading, lecture, and lab materials covered after the first test. Review questions will be provided. See schedule of activities for the test date.

Important Note: A doctor's certificate or equivalent is required to take a supplementary examination. Other supplementary examinations approved by the instructor may be subjected to a penalty of 10% per day.
