Assessment	Weight

Quizzes	45% (15% each)
Final exam	35

(a) Seminar Assignments

Seminar assignments are short discussion-based assessments. One will be given each seminar period, with the exception of the first and last day of term and any quiz days.

Completing any assigned seminar reading is essential preparation for seminar assignments. Other preparation or follow-up activities may be required to receive credit. Further details will be communicated as we go.

To account for unpredictable and/or unavoidable absences, each student's lowest seminar assignment mark will be dropped with no questions asked. No rewrites, deferrals, or extra credits allowed.

In order to receive credit for completing a seminar assignment, students must also attend the lecture the same day.

(b) Quizzes

There are three quizzes over the course of term. Each quiz will focus on the material studied in lecture and seminar since the last quiz (if applicable).

Quizzes can be written at an alternative day and time only if there are truly exceptional circumstances. If such circumstances occur, this should be communicated to the instructor as soon as possible.

(c) Final Exam

There is a final exam to be scheduled by the college during the final exam period. Please avoid making any plans for the final exam period until the college has posted the final exam schedule on Feb. 23, 2018. Final exams can be rescheduled only in truly exceptional circumstances. If such circumstances occur, this should be communicated to the instructor as soon as possible.

(d) Ethical Decision-Making Framework (EDMF) Analysis

In this assignment an EDMF learned in class will be applied to a case. Further details will be posted to D2L.
