

## CAMOSUN COLLEGE School of Arts & Science Department of Physics & Astronomy

## PHYS-104-004 General College Physics 1 Winter 2019

# **COURSE OUTLINE**

The course description is available on the web @ http://camosun.ca/learn/calendar/current/web/phys.html

 $\Omega$  Please note: This outline will not be kept indefinitely. It is recommended students keep this outline for their records, especially to assist in transfer credit to post-secondary institutions.

#### 1. Instructor Information

| (a) Instructor   | Ed Nelson                                     |              |  |
|------------------|---|--------------|--|
| (b) Office hours | M 1:30 – 2:20; T 12:30 – 2:20; F 11:30 – 1:20 |              |  |
| (c) Location     | Office TECH 218                               |              |  |
| (d) Phone 250    | 370 4435                                      | Alternative: |  |
| (e) E-mail       | nelson@camosun.bc.ca                          |              |  |
| (f) Website      | online.camosun.bc.ca                          |              |  |
|                  |   |              |  |

## 2. Intended Learning Outcomes

Upon completion of this course a student will be able to:

- 1. Solve technical problems involving one-dimensional kinematics for a single particle undergoing constant acceleration along horizontal and inclined surfaces, and in free fall.
- Solve technical problems involving the dynamics of a single particle in one dimension, the vector nature of forces, the net force on an object, free-body diagrams for single and two interacting objects, gravitational forces, and inertia.
- 3. Solve technical problems involving kinetic energy, gravitational potential energy, elastic potential energy, conservation of mechanical energy, and mechanical power, in one dimension.
- 4. Solve technical problems involving conversions between common temperature scales, specific heat capacity, latent heats, calorimetry, and heat transfer by radiation, thermal conduction and convection.
- 5. Solve technical problems involving nuclear energy (mass-energy equivalence, binding energy), demonstrate knowledge of nuclear fission, fusion, and fuel disposal problems.
- 6. Solve elementary technical problems involving graphical and trigonometric vector algebra in two dimensions, two-dimensional kinematics (motion), dynamics (forces), work and power.
- 7. Solve technical problems involving projectile motion, circular motion with constant speed, gravitational forces and planetary motion.
- 8. Solve technical problems involving hydrostatics (Archimedes' principle, Pascal's principle) and simple fluids in motion (Equation of continuity, Bernoulli's equation).
- 9. Assemble experimental apparatus using written instructions.
- 10. Observe, record, organize and display data in tables, graphs or charts.
- 11. Analyze linear graphs (determine area, slope, intercept, etc.).
- 12. Observe and record sources of error and estimate the range of uncertainty in results.
- 13. Interpret meaning of experimental results in the context of the experimental objectives.
- 14. Write scientific reports in an acceptable, traditional format.

## 3. Required Materials

- (a) Text: "Physics: Principles with Applications", 7th edition, Douglas C. Giancoli, Pearson 2014
- (b) PHYS 104 Lab Manual / Drawing Set / Graph Paper (package)

## 4. Course Content and Schedule

LEC MTThF 8:30 – 9:20 am LAB W 12:30 – 2:20 pm

## 5. Basis of Student Assessment (Weighting)

- (a) Assignments 5%
- (b) Quizzes 5%
- (c) Midterm(s) 25% (drop lowest mark of 4 midterms)
- (d) Lab Reports 20%
- (e) Final Exam 45%

#### PHYSICS DEPARTMENT GUIDELINES REGARDING TESTING AND GRADING:

- The final exam will cover the entire course and will be 3 hours long. As stated in the current college calendar, "students are expected to write tests and final exams at the scheduled time and place." Exceptions will only be considered due to emergency circumstances as outlined in the calendar. Holidays or scheduled flights are not considered to be emergencies.
- Students must write quizzes, tests, midterm tests, etc., on the date and time assigned by the instructor. Missed exams normally receive a zero grade. Instructors are not required to provide make-up tests. At their discretion, instructors may waive a test in exceptional circumstances such as medical issues or a documented illness.
- Any outstanding homework or labs must be submitted prior to the last day of classes, and will be graded according to the late policy outlined by the instructor.
- Refer to your instructor's information page for any additional policies regarding testing and grade calculation.

#### PHYSICS DEPARTMENT GUIDELINES REGARDING LABS:

- <u>Students must obtain an overall grade of 50% or higher in the laboratory component of the course</u> order to obtain credit for the course.
- Attendance is mandatory & you may be required to "sign in" at the beginning of each lab period. A lab may be waived or made up at a later time only in the case of documented illness or other extenuating circumstances. If you will be absent from a lab period due to illness it is your responsibility to notify your instructor.
- Unless otherwise stated by your instructor late penalties are as follows: For overdue labs (or assignments), a late penalty of 1 mark per day (10%) will be assessed for the first five days following the due date. After this date a complete report is still required and earns a maximum mark of 50%.
- At the discretion of the instructor, a student who is repeating this Physics course with a laboratory grade of 70% or higher may apply for lab exemption.
- Students will complete a minimum of 9 laboratory experiments including 3 formal reports (with full uncertainty calculations) and at least at least one lab using technology to perform data analysis.

## 6. Grading System

Standard Grading System (GPA)

Com

Competency Based Grading System

# 7. Recommended Materials to Assist Students to Succeed Throughout the Course

## 8. College Supports, Services and Policies

#### Immediate, Urgent, or Emergency Support

If you or someone you know requires immediate, urgent, or emergency support (e.g. illness, injury, thoughts of suicide, sexual assault, etc.), **SEEK HELP**. Resource contacts @ <u>http://camosun.ca/about/mental-health/emergency.html</u> or <u>http://camosun.ca/services/sexual-violence/get-support.html#urgent</u>

#### **College Services**

Camosun offers a variety of health and academic support services, including counselling, dental, disability resource centre, help centre, learning skills, sexual violence support & education, library, and writing centre. For more information on each of these services, visit the **STUDENT SERVICES** link on the College website at <u>http://camosun.ca/</u>

#### **College Policies**

Camosun strives to provide clear, transparent, and easily accessible policies that exemplify the college's commitment to life-changing learning. It is the student's responsibility to become familiar with the content of College policies. Policies are available on the College website at <a href="http://camosun.ca/about/policies/">http://camosun.ca/about/policies/</a>. Education and academic policies include, but are not limited to, Academic Progress, Admission, Course Withdrawals, Standards for Awarding Credentials, Involuntary Health and Safety Leave of Absence, Prior Learning Assessment, Medical/Compassionate Withdrawal, Sexual Violence and Misconduct, Student Ancillary Fees, Student Appeals, Student Conduct, and Student Penalties and Fines.

#### A. GRADING SYSTEMS http://camosun.ca/about/policies/index.html

#### The following two grading systems are used at Camosun College:

| Percentage | Grade | Description | Grade Point<br>Equivalency |
|------------|-------|-------------|----------------------------|
| 90-100     | A+    |             | 9                          |
| 85-89      | А     |             | 8                          |
| 80-84      | A-    |             | 7                          |
| 77-79      | B+    |             | 6                          |
| 73-76      | В     |             | 5                          |
| 70-72      | B-    |             | 4                          |
| 65-69      | C+    |             | 3                          |
| 60-64      | С     |             | 2                          |

#### 1. Standard Grading System (GPA)

| 50-59 | D |                                      | 1 |
|-------|---|--------------------------------------|---|
| 0-49  | F | Minimum level has not been achieved. | 0 |

#### 2. Competency Based Grading System (Non GPA)

This grading system is based on satisfactory acquisition of defined skills or successful completion of the course learning outcomes

| Grade | Description   |
|-------|---|
| СОМ   | The student has met the goals, criteria, or competencies established for this course, practicum or field placement.   |
| DST   | The student has met and exceeded, above and beyond expectation, the goals, criteria, or competencies established for this course, practicum or field placement. |
| NC    | The student has not met the goals, criteria or competencies established for this course, practicum or field placement.  |

## **B.** Temporary Grades

Temporary grades are assigned for specific circumstances and will convert to a final grade according to the grading scheme being used in the course. See Grading Policy at <a href="http://camosun.ca/about/policies/index.html">http://camosun.ca/about/policies/index.html</a> for information on conversion to final grades, and for additional information on student record and transcript notations.

| Temporary<br>Grade | Description  |
|--------------------|--|
| I                  | <i>Incomplete</i> : A temporary grade assigned when the requirements of a course have not yet been completed due to hardship or extenuating circumstances, such as illness or death in the family.   |
| IP                 | <i>In progress</i> : A temporary grade assigned for courses that are designed to have<br>an anticipated enrollment that extends beyond one term. No more than two IP<br>grades will be assigned for the same course.   |
| CW                 | <i>Compulsory Withdrawal</i> : A temporary grade assigned by a Dean when an instructor, after documenting the prescriptive strategies applied and consulting with peers, deems that a student is unsafe to self or others and must be removed from the lab, practicum, worksite, or field placement. |

#### **COURSE OUTLINE (Textbook References)**

## 1. Measurement and Units – REVIEW (Ch. 1.1 – 1.7)

#### 2. Kinematics in one dimension - REVIEW (Ch. 2)

- 2.1 Displacement
- 2.2 Average and instantaneous velocity
- 2.3 Average and instantaneous acceleration
- 2.4 Equations of uniformly-accelerated motion
- 2.5 Application to falling bodies
- 2.6 OPTIONAL: Review of kinematic graphs (2.8)

#### 3. Dynamics in one dimension - REVIEW (Ch. 4.1 - 4.6)

- 3.1 Introduction to Newton's Laws of Motion
- 3.2 Mass and Weight
- 3.3 Types of forces (gravitational, contact, tension; friction (def'n in 4.8))
- 3.4 Free body diagrams. Concept of net force

## 4. Kinematics and Dynamics Vectors in two dimensions (Ch. 3.1 – 3.6) and (Ch. 4.7, 4.8)

- 4.1 Graphical representation of vector algebra
- 4.2 Vector algebra by trigonometry
- 4.3 Kinematics in two dimensions
- 4.4 Projectile motion (OPTIONAL; Max. height and Range eq'ns.)
- 4.5 Dynamics in two dimensions; simultaneous forces, inclines (OPTIONAL: Connected objects.)
- 4.6 Review of Work and Energy in two dimensions and with dissipative forces.

## 5. Uniform circular motion and gravitation (Ch. 5.1 – 5.3, 5.6 – 5.9)

- 5.1 Kinematics and dynamics of uniform circular motion
- 5.2 Newton's Universal law of gravitation
- 5.3 Application to circular planetary motion; satellites.
- 5.4 OPTIONAL: Kepler's laws (5.9)

## 6. Work, energy and power (Ch. 6.1, 6.3 - 6.10, omit inclines)

- 6.1 Work done by a constant force. Net work
- 6.2 Kinetic energy. The Work-Energy Principle
- 6.3 Potential energy (gravitational, spring)
- 6.4 Conservative and Non-conservative forces
- 6.5 Conservation of mechanical energy
- 6.6 Energy conservation with dissipative forces
- 6.7 Power and efficiency

## 7. Thermal energy (Ch. 13.2, 13.4) and (Ch. 14)

- 7.1 Temperature and thermometers
- 7.2 Thermal expansion
- 7.3 Heat as a form of energy; specific heat

- 7.4 Change of state and latent heat; calorimetry
- 7.5 Heat transfer: conduction, convection and radiation
- 7.6 OPTIONAL: Heat Transfer Applications.

## 8. Nuclear energy (Ch. 30.1 - 30.8) and (Ch. 31.1 - 31.4)

- 8.1 Structure and properties of nucleus
- 8.2 Binding energy
- 8.3  $\alpha$ ,  $\beta$ ,  $\gamma$  decay processes
- 8.4 OPTIONAL: Radioactivity, Concept of half-life (30.3, 30.8 qualitative)
- 8.5 Nuclear Energy; The chain reaction; Applications
- 8.6 Nuclear waste; disposal and reprocessing.
- 8.7 Fusion energy; Applications (energy-production in stars)
- 8.8 OPTIONAL: Radiation damage in matter (31.4)

#### 9. Fluids (Ch. 10.1 – 10.10)

- 9.1 Pressure; fluid statics and density
- 9.2 Pascal's Principle
- 9.3 Archimede's Principle and buoyancy
- 9.4 Fluids in motion; Equation of continuity
- 9.5 OPTIONAL: Bernoulli's Principle and applications. (10.9, 10.10)
