R Labs: This course includes R lab sessions designed to familiarize students with the use of a computer as a tool for statistical analysis. *You will need to work through a lab tutorial in R in each lab.* A lab assignment will be assigned for each lab session. Understanding each lab is essential for succeeding the Lab Final Examination.

Math Lab (Help Centre): Math lab **E224** is staffed with instructional assistants available for **free face-to-face** help (no, they don't answer emails or phone calls). Lab hours are posted on the lab door and can be viewed at <http://camosun.ca/services/help-centres/>

Calculator policy: A Sharp EL-531 scientific calculator is required. This is the *only* calculator that will be allowed for tests and the final examination. This calculator is available at the Lansdowne Bookstore, and some other stores.

Homework: *"I hear and I forget. I see and I remember. I do and I understand."* The homework for this course will include 1) Problem sets on worksheets, 2) R lab assignments, and 3) Suggested exercises posted on D2L. *In order to get a full understanding of the course materials, which usually leads to a good grade, it is necessary to mindfully complete all three sets of homework. It is essential to review notes and do homework each week and to keep up consistently. **Cramming does not work for this course.***

Attendance

Attendance is necessary. Showing up to classes is the easiest and most important thing you can do to help you succeed the course. If you feel yourself falling behind at any point during the term, then please do not hesitate to come to speak to me.

Desire2Learn (D2L)

This class has the assistance of D2L, an online course management system. All course related materials, including lab manuals and data sets, worksheets and solutions, practice problem sets and solutions, tests solutions, grades, and announcements will be available on D2L. It is your responsibility to subscribe to the *notifications on D2L* or check it regularly.

5. Basis of Student Assessment (Weighting)

- (a) Lab and Assignments 20%
- (b) Midterms 30%
- (c) Lab Final 10%
- (d) Final Exam 40%

All tests must be written during the scheduled times. In the event that you missed a test due to a family emergency or illness, the weight of the test will be put on the final exam if the instructor is notified before the test. NO late assignments or labs will be accepted. Final examinations will be scheduled by the College and

they will take place during April 15-18, and April 23-26. You must be available to write the final examination at the scheduled time. Vacations or scheduled flights are not considered as emergencies.

6. Grading System

- Standard Grading System (GPA)
- Competency Based Grading System

7. Recommended Materials to Assist Students to Succeed Throughout the Course

Please see STAT 219 D2L page.
