Students are required to complete the readings before coming to class; student may be required to complete a portion of the written assignment prior to the tutorial class. Please read the tutorial handouts for more detail.</p> <p>Students <b>must</b> attend the lab/tutorial class in order to receive credit for these assignments. ## 6. Grading System

Standard Grading System (GPA)

Competency Based Grading System

## 7. Recommended Materials to Assist Students to Succeed Throughout the Course

### INSTRUCTIONAL POLICIES

#### 7.1 Attendance

Students are expected to attend lectures as material covered in lecture will be included in the exams, and will augment and supplement the material in the readings. As well, announcements regarding course content and exams will be made in class. I will not provide my personal notes to students who miss class.

#### 7.2 Late Assignments

Late assignments will not be accepted in this course. Assignments must be completed on the day they are assigned.

#### 7.3 Mark/Grade Challenges and Appeals

A student wishing to question a mark assigned by the instructor on any course evaluation component

must clearly articulate in writing the specific element of the assignment being questioned as well as a reason supporting a change in the mark. The Student Appeals Procedure can be found in the college calendar.

#### 7.4 Student Responsibility

It is each student's responsibility to familiarize her/himself with course and college policies. Students experiencing difficulties during the term are encouraged to talk to the instructor at the earliest opportunity.

#### 7.5 Cell phones, Laptops, and Other Electronic Devices

Please do not use your phone for texting, messaging, checking email, etc... during class time. Students are welcome to use a laptop in class, but please do not use it for entertainment purposes. The reason for this is two-fold. One, it is distracting to the students sitting behind you. Two, studies have shown that when students multi-task in class (text, watch movies, check email) they do worse on exams and assignments. If a student is found to be engaging in these activities during class and disrupting other students, they will be prohibited from using their laptop in class.

#### 7.6 Lateness, and classroom conduct

Please try to be on time for class. If you are late, please enter the classroom quietly and do your best not to disrupt the other students. Please refrain from speaking with your classmates during the lecture. It is disruptive to the people sitting around you, as well as the instructor. Please DO ask questions during the lecture; I am quite happy to be interrupted to rephrase or clarify any points I have made.

#### 7.7 Missed Exams

Failure to attend a midterm will result in a mark of zero, unless I have been informed within 2 working days and an excused absence has been granted. In the case of illness, a medical note is required in order to write a make-up exam. If you fail to come for a make-up at the scheduled time, the exam will not be further rescheduled unless an additional medical certificate is presented to me. Unavailability of texts and pressure of other work does not constitute a reason for missing exams. Rescheduling a quiz or assignment following an excused absence will be done at the mutual convenience of the student and instructor.

### **PLAGIARISM**

Cheating and plagiarism are serious offences and can lead to failing a course and even expulsion from the college. According to the Camosun College Student Conduct Policy (2016) the definition of plagiarism is:

1. *Submitting an entire assignment (e.g. paragraph, essay, report, lab report, technical drawing, exam, etc.) written by someone else. This is plagiarism even if you make revisions to the original work.*
2. *Submitting an assignment in which you have copied or cut and pasted one or more passages from one or more other works or an internet site without enclosing those passages in quotation marks and providing clear, correct citations for those passages.*
3. *Submitting an assignment in which you take one or more ideas from another work(s) without citing them, even when you reword or put those ideas in your own words (that is, paraphrasing them). You must provide clear, correct citations for theories, arguments, facts, stories, or other information that you did not come up with on your own.*
4. *Submitting an assignment that an editor or tutor, whether amateur or professional, has partially or entirely rewritten for you. A tutor is not a copy editor. A tutor's role is to explain general principles of writing, grammar, syntax, punctuation, and spelling.*
5. *Submitting a group project which contains plagiarism. It is the responsibility of all members of the group to monitor the progress of the work to ensure that plagiarism does not occur.*
