

**CAMOSUN COLLEGE**  
**School of Arts & Science**  
**Department of Mathematics & Statistics**

**MATH-251-X02**  
**Matrix Algebra for Engineers**  
**FALL 2019**

**COURSE OUTLINE**

---

The course description is online @ <http://camosun.ca/learn/calendar/current/web/math.html>

☐ Please note: This outline will not be kept indefinitely. It is recommended students keep this outline for their records, especially to assist in transfer credit to post-secondary institutions.

---

**1. Instructor Information**

(a) Instructor	LEAH HOWARD
(b) Office hours	Mon 11:30-1:20, Tues 12:30-1:20, Wed/Thurs/Fri 11:30-12:20
(c) Location	CBA 151
(d) Phone	250-370-4490 <b>Alternative:</b> _____
(e) E-mail	HowardL@camosun.ca
(f) Website	www.leahhoward.com

**FREE MATH HELP IS ALSO AVAILABLE IN THE MATH LAB, TEC 142.**

**2. Intended Learning Outcomes**

*(If any changes are made to this part, then the Approved Course Description must also be changed and sent through the approval process.)*

Upon completion of this course the student will be able to:

1. Perform vector operations and use vectors to write parametric equations for lines and planes.
2. Use the dot product to find projections and to find angles between vectors.
3. Solve linear systems using row reduction.
4. Perform matrix operations and give examples of matrices with specific properties.
5. Determine if a transformation is a linear transformation and find the standard matrix for a linear transformation.
6. Find the inverse of an invertible matrix and use it to solve matrix equations.
7. Construct and use elementary matrices to perform row operations.
8. Find LU decompositions.
9. Determine whether a set of vectors is a basis and be able to prove simple facts about linear independence and spans. Find the components of a vector with respect to a given basis.
10. Determine whether a set of vectors in n-dimensional Euclidean space forms a subspace.
11. Use the Gram-Schmidt process to construct an orthonormal basis.
12. Find the matrix of a linear transformation in a different basis.
13. Find matrices for general linear transformations. Determine the kernels and ranges of general linear transformations.
14. Find determinants by cofactor expansion and use Cramer's rule to solve linear systems of equations.
15. Use the cross product to find areas, volumes, and perpendicular vectors.

16. Find eigenvalues and eigenvectors of matrices and linear transformations and construct diagonal matrices for the transformations.
17. Perform operations with complex numbers including finding the n'th roots of complex numbers.

### 3. Required Materials

A scientific calculator (non-programmable, non-graphing).

Download or print the coursepack containing the suggested homework problems and answers. The link will be provided in class. You can print the coursepack by taking a flash drive containing the file to the Satellite Printshop in the CBA Atrium.

Optional Text:     ***Linear Algebra: A Modern Introduction, Poole, 3<sup>rd</sup> or 4<sup>th</sup> Edition***

### 4. Course Content

1.1 Geometry and Algebra of Vectors

1.2 Length and Angle

1.3 Lines and Planes

Cross Product

2.1 Linear Systems

2.2 Solving Systems

2.3 Spanning Sets and Linear Independence

2.4 Applications of Linear Systems

3.1 Matrix Operations

3.2 Matrix Algebra

3.3 The Inverse of a Matrix

3.4 LU Factorization

3.5 Subspaces, Basis, Dimension and Rank

3.6 Linear Transformations

4.1 Eigenvalues and Eigenvectors of  $2 \times 2$  Matrices

4.2 Determinants

4.3 Eigenvalues and Eigenvectors of  $n \times n$  Matrices

4.4 Diagonalization

5.1 Orthogonality

5.2 Orthogonal Complements and Projections

5.3 The Gram-Schmidt Process and QR Factorization

5.4 Orthogonal Diagonalization

7.3 Least Squares Approximation

Complex Numbers

## 5. Basis of Student Assessment (Weighting)

- 4 Tests (each worth 12.5% of your final grade)
- Comprehensive Final Exam (worth 50% of your final grade)

Tentative Test Dates: Fri Sept 27, Fri Oct 18, Fri Nov 8, Fri Nov 29

If you miss a test for any reason then your final exam will be worth 62.5% of your final grade.

The final exam will cover the entire course and will be 3 hours long. As stated in the current college calendar, “students are expected to write final examinations at the scheduled time and place.” Exceptions will only be considered due to **emergency** circumstances as outlined in the calendar. Holidays or scheduled flights are not considered to be emergencies.

## 6. Grading System

- Standard Grading System (GPA)
- Competency Based Grading System

## 7. College Supports, Services and Policies

### Immediate, Urgent, or Emergency Support

If you or someone you know requires immediate, urgent, or emergency support (e.g. illness, injury, thoughts of suicide, sexual assault, etc.), **SEEK HELP**. Resource contacts @ <http://camosun.ca/about/mental-health/emergency.html> or <http://camosun.ca/services/sexual-violence/get-support.html#urgent>

### College Services

Camosun offers a variety of health and academic support services, including counselling, dental, disability resource centre, help centre, learning skills, sexual violence support & education, library, and writing centre. For more information on each of these services, visit the **STUDENT SERVICES** link on the College website at <http://camosun.ca/>

### College Policies

Camosun strives to provide clear, transparent, and easily accessible policies that exemplify the college's commitment to life-changing learning. It is the student's responsibility to become familiar with the content of College policies. Policies are available on the College website at <http://camosun.ca/about/policies/>. Education and academic policies include, but are not limited to, Academic Progress, Admission, Course Withdrawals, Standards for Awarding Credentials, Involuntary Health and Safety Leave of Absence, Prior Learning Assessment, Medical/Compassionate Withdrawal, Sexual Violence and Misconduct, Student Ancillary Fees, Student Appeals, Student Conduct, and Student Penalties and Fines.

## A. GRADING SYSTEMS <http://camosun.ca/about/policies/index.html>

### 1. Standard Grading System (GPA)

Percentage	Grade	Description	Grade Point Equivalency
90-100	A+		9
85-89	A		8
80-84	A-		7
77-79	B+		6
73-76	B		5
70-72	B-		4
65-69	C+		3
60-64	C		2
50-59	D		1
0-49	F	Minimum level has not been achieved.	0

### 2. Competency Based Grading System (Non GPA)

This grading system is based on satisfactory acquisition of defined skills or successful completion of the course learning outcomes

Grade	Description
COM	The student has met the goals, criteria, or competencies established for this course, practicum or field placement.
DST	The student has met and exceeded, above and beyond expectation, the goals, criteria, or competencies established for this course, practicum or field placement.
NC	The student has not met the goals, criteria or competencies established for this course, practicum or field placement.

## B. Temporary Grades

Temporary grades are assigned for specific circumstances and will convert to a final grade according to the grading scheme being used in the course. See Grading Policy at <http://camosun.ca/about/policies/index.html> for information on conversion to final grades, and for additional information on student record and transcript notations.

Temporary Grade	Description
I	<i>Incomplete:</i> A temporary grade assigned when the requirements of a course have not yet been completed due to hardship or extenuating circumstances, such as illness or death in the family.
IP	<i>In progress:</i> A temporary grade assigned for courses that are designed to have an anticipated enrollment that extends beyond one term. No more than two IP grades will be assigned for the same course.
CW	<i>Compulsory Withdrawal:</i> A temporary grade assigned by a Dean when an instructor, after documenting the prescriptive strategies applied and consulting with peers, deems that a student is unsafe to self or others and must be removed from the lab, practicum, worksite, or field placement.
