

# CAMOSUN COLLEGE School of Arts & Science Department of Mathematics & Statistics

MATH-107-X03 Applied Precalculus Winter 2020

# **COURSE OUTLINE**

The course description is online @ http://camosun.ca/learn/calendar/current/web/math.html

 $\Omega$  Please note: This outline will <u>not</u> be kept indefinitely. It is recommended students keep this outline for their records, especially to assist in transfer credit to post-secondary institutions.

## 1. Instructor Information

| (a) | Instructor   | Susan Kinniburgh                                                                 |  |  |
|-----|--------------|----------------------------------------------------------------------------------|--|--|
| (b) | Office hours | Tuesdays 11-12, 2-2:50; Thursdays 10-11; Fridays 10:30-11:30 (or by appointment) |  |  |
| (c) | Location     | LACC 235                                                                         |  |  |
| (d) | Phone        | 250-370-4475 Alternative:                                                        |  |  |
| (e) | E-mail       | kinniburghs@camosun.bc.ca                                                        |  |  |
| (f) | Website      | D2L: online.camosun.ca<br>Webwork: https://webworklans2.camosun.ca/webwork2      |  |  |

## 2. Intended Learning Outcomes

Upon completion of this course a student will be able to:

- Demonstrate proficiency in the fundamental concepts of Intermediate Algebra necessary to analyze and interpret single variable functions. This includes but is not limited to: factorization of polynomials and expressions with rational exponents, simplification of rational expressions, complex fractions and radicals, solving subsequent polynomial, radical, and rational equations, and single variable linear and quadratic inequalities.
- 2. Demonstrate the ability to understand and interpret visual 2-D representation of single variable relationships. This includes working with the basic concepts of graphing in the co-ordinate plane with an emphasis on linear equations, circles, and ellipses.
- 3. Work with analytic representations of single variable relationships and connect basic models to their visual representations. This includes building a foundation of understanding of terminology and notation for functions, including basic definitions and examples.
- 4. Work with more advanced functions to enable more complex modelling and analysis in followon courses. Examples include: quadratic, polynomial, rational, exponential, trigonometric and inverse trigonometric functions.
- 5. Solve word problems involving arithmetic and geometric sequences and series.

# 3. Required Materials

- (a) Course Pack: Materials for a course pack including notes and review problems will be posted on D2L. These materials must be printed off before class and used during the lecture.
- (b) Textbook: Algebra and Trigonometry, Sullivan, 10<sup>th</sup> edition (Recommended)
- (c) Calculator: suggest the Sharp EL-531. Only calculators approved by the instructor may be used for term tests and the final exam.

# 4. Course Content and Schedule

The list below shows the sections that we intend to cover. Most sections will take approximately one hour of class time, but may vary. Use this, as well as classroom announcements to help determine which chapters to print before coming to each class. Any sections that are changed or omitted will be indicated in the course notes on D2L, which will generally be posted after each class.

Chapter R Review

- **R.5 Factoring Polynomials**
- R.6 Synthetic Division
- R.7 Rational Expressions
- R.8 nth Roots; Rational Exponents
- Chapter 1 Equations and Inequalities
  - 1.1 Linear Equations
  - 1.2 Quadratic Equations
  - 1.4 Radical Equations; Equations Quadratic in Form; Factorable Equations
  - 1.5 Solving Inequalities

Chapter 2 Graphs

- 2.1 The Distance and Midpoint Formulas
- 2.2 Graphs of Equations in Two Variables; Intercepts; Symmetry
- 2.3 Lines
- 2.4 Circles
- Chapter 11 Analytic Geometry
  - 11.3 The Ellipse
- Chapter 3 Functions and Their Graphs
  - 3.1 Functions
  - 3.2 The Graph of a Function
  - 3.3 Properties of Functions
  - 3.4 Library of Functions; Piecewise-defined Functions
  - 3.5 Graphing Techniques: Transformations
  - 3.6 Mathematical Models: Building Functions
- Chapter 4 Linear and Quadratic Functions
  - 4.1 Properties of Linear Functions and Linear Models
  - 4.3 Quadratic Functions and Their Properties
  - 4.4 Build Quadratic Models from Verbal Descriptions and from Data
  - 4.5 Inequalities Involving Quadratic Functions
- Chapter 5 Polynomial and Rational Functions
  - 5.1 Polynomial Functions and Models
  - 5.2 Properties of Rational Functions
  - 5.3 The Graph of a Rational Function
  - 5.4 Polynomial and Rational Inequalities
  - 5.5 The Real Zeros of a Polynomial Function
- Chapter 6 Exponential and Logarithmic Functions
  - 6.1 Composite Functions
  - 6.2 One-to-One Functions; Inverse Functions
  - 6.3 Exponential Functions
  - 6.4 Logarithmic Functions
  - 6.5 Properties of Logarithms
  - 6.6 Logarithmic and Exponential Equations
  - 6.7 Financial Models
  - 6.8 Exponential Growth and Decay Models; Newton's Law; Logistic Growth and Decay Models
- Chapter 7 Trigonometric Functions
  - 7.1 Angles and Their Measure

- 7.2 Right Triangle Trigonometry
- 7.3 Computing the Values of Trigonometric Functions of Acute Angles
- 7.4 Trigonometric Functions of Any Angle
- 7.5 Unit Circle Approach; Properties of the Trigonometric Functions
- 7.6 Graphs of the Sine and Cosine Functions
- 7.7 Graphs of the Tangent, Cotangent, Cosecant, and Secant Functions
- 7.8 Phase Shift; Sinusoidal Curve Fitting
- Chapter 8 Analytic Trigonometry
  - 8.1 The Inverse Sine, Cosine, and Tangent Functions
    - 8.2 The Inverse Trigonometric Functions (Continued)
    - 8.3 Trigonometric Equations
  - 8.4 Trigonometric Identities
  - 8.5 Sum and Difference Formulas
  - 8.6 Double-angle Formulas
- Chapter 13 Sequences; Induction; the Binomial Theorem
  - 13.1 Sequences
  - 13.2 Arithmetic Sequences
  - 13.3 Geometric Sequences; Geometric Series

### 5. Basis of Student Assessment (Weighting)

- (b) Assignments 7%: assignments will be approximately weekly and generally completed online using WeBWorK. Hard copy assignments, if applicable, will be posted on D2L as a pdf to be printed and completed. Any assignments will be made available at least one week prior to the due date with an announcement via email and deadline on the D2L calendar.
- (c) Quizzes 7%: there will be short quizzes at the beginning of class on most Tuesdays, generally covering material from the topics of the previous Thursday and Friday classes. More specific details of the quiz and any cancellations will be discussed in class.
- (d) **Term Tests 36%:** There will be 4 Tests during the term. The dates and practice problems will be posted on D2L, the coverage of each test will be discussed in class.
- (e) Final Exam 50%: the final exam will cover the entire course and will be 3 hours long. As stated in the current college calendar, "students are expected to write tests and final examinations at the scheduled time and place." Exceptions will only be considered due to **emergency** circumstances as outlined in the calendar. Holidays or scheduled flights are not considered emergencies. The schedule will be posted on Camlink on February 21, 2020.

## 6. Grading System

Standard Grading System (GPA)

## 7. Recommended Materials to Assist Students to Succeed Throughout the Course

- The Math Lab in TEC140 has a tutor on staff. Hours are posted on the door. You may also visit the math lab in E244 at the Lansdowne campus
- www.wolframalpha.com and www.desmos.com have excellent free graphing software
- www.khanacademy.org has many good video lectures

# 8. College Supports, Services and Policies

### Immediate, Urgent, or Emergency Support

If you or someone you know requires immediate, urgent, or emergency support (e.g. illness, injury, thoughts of suicide, sexual assault, etc.), **SEEK HELP**. Resource contacts @ <u>http://camosun.ca/about/mental-health/emergency.html</u> or <u>http://camosun.ca/services/sexual-violence/get-support.html#urgent</u>

### **College Services**

Camosun offers a variety of health and academic support services, including counselling, dental, disability resource centre, help centre, learning skills, sexual violence support & education, library, and writing centre. For more information on each of these services, visit the **STUDENT SERVICES** link on the College website at <u>http://camosun.ca/</u>

### **College Policies**

Camosun strives to provide clear, transparent, and easily accessible policies that exemplify the college's commitment to life-changing learning. It is the student's responsibility to become familiar with the content of College policies. Policies are available on the College website at <a href="http://camosun.ca/about/policies/">http://camosun.ca/about/policies/</a>. Education and academic policies include, but are not limited to, Academic Progress, Admission, Course Withdrawals, Standards for Awarding Credentials, Involuntary Health and Safety Leave of Absence, Prior Learning Assessment, Medical/Compassionate Withdrawal, Sexual Violence and Misconduct, Student Ancillary Fees, Student Appeals, Student Conduct, and Student Penalties and Fines.

## A. GRADING SYSTEMS http://camosun.ca/about/policies/index.html

### The following two grading systems are used at Camosun College:

| Percentage | Grade | Description                          | Grade Point<br>Equivalency |
|------------|-------|--------------------------------------|----------------------------|
| 90-100     | A+    |                                      | 9                          |
| 85-89      | А     |                                      | 8                          |
| 80-84      | A-    |                                      | 7                          |
| 77-79      | B+    |                                      | 6                          |
| 73-76      | В     |                                      | 5                          |
| 70-72      | B-    |                                      | 4                          |
| 65-69      | C+    |                                      | 3                          |
| 60-64      | С     |                                      | 2                          |
| 50-59      | D     |                                      | 1                          |
| 0-49       | F     | Minimum level has not been achieved. | 0                          |

1. Standard Grading System (GPA)

### 2. Competency Based Grading System (Non GPA)

This grading system is based on satisfactory acquisition of defined skills or successful completion of the course learning outcomes

| Grade | Description                                                                                                         |
|-------|---------------------------------------------------------------------------------------------------------------------|
| COM   | The student has met the goals, criteria, or competencies established for this course, practicum or field placement. |

| DST | The student has met and exceeded, above and beyond expectation, the goals, criteria, or competencies established for this course, practicum or field placement. |
|-----|-----------------------------------------------------------------------------------------------------------------------------------------------------------------|
| NC  | The student has not met the goals, criteria or competencies established for this course, practicum or field placement.                                          |

# **B.** Temporary Grades

Temporary grades are assigned for specific circumstances and will convert to a final grade according to the grading scheme being used in the course. See Grading Policy at <a href="http://camosun.ca/about/policies/index.html">http://camosun.ca/about/policies/index.html</a> for information on conversion to final grades, and for additional information on student record and transcript notations.

| Temporary<br>Grade | Description                                                                                                                                                                                                                                                                                          |
|--------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| I                  | <i>Incomplete</i> : A temporary grade assigned when the requirements of a course have not yet been completed due to hardship or extenuating circumstances, such as illness or death in the family.                                                                                                   |
| IP                 | <i>In progress</i> : A temporary grade assigned for courses that are designed to have<br>an anticipated enrollment that extends beyond one term. No more than two IP<br>grades will be assigned for the same course.                                                                                 |
| CW                 | <i>Compulsory Withdrawal</i> : A temporary grade assigned by a Dean when an instructor, after documenting the prescriptive strategies applied and consulting with peers, deems that a student is unsafe to self or others and must be removed from the lab, practicum, worksite, or field placement. |
