

CAMOSUN COLLEGE
School of Arts & Science
Department of Biology

BIOL-152-D03A/B
Anatomy/Physiology 1: Nursing
Fall 2020

COURSE OUTLINE

The course description is online @ <http://camosun.ca/learn/calendar/current/web/biol.html>

Ω Please note: This outline will not be kept indefinitely. It is recommended students keep this outline for their records, especially to assist in transfer credit to post-secondary institutions.

1. Instructor Information

- (a) **Instructor** Jennifer Giuliani
Mondays 9:30-10:30am
- (b) **Office hours** Tuesdays 1:30-3:00pm *plus other days/times by appointment
Wednesdays 1:30-3:00pm
- (c) **Location** Office hours will be held online, using Blackboard Collaborate. Sign in to our course on D2L and follow the links to this “virtual office”.
- (d) **Phone** 250-370-3445
- (e) **E-mail** GiulianiJ@camosun.ca
- (f) **Website** Go to online.camosun.ca to sign in to D2L

2. Intended Learning Outcomes

Upon completion of this course the student will be able to:

1. Demonstrate proper use and understanding of anatomical and physiological terminology related to half of the organ systems. The remaining systems will be covered in Biology 153.
2. Use concepts related to basic anatomy, physiology and histology to explain the maintenance of health and prevention of disease.
3. Use knowledge of normal anatomy and physiology to differentiate normal from abnormal.
4. Use knowledge of anatomy and physiology as a basis for further study of pathophysiology.
5. Relate knowledge of gross anatomy and physiological processes gained through laboratory activities to assessment of health.

3. Required Materials

(a) Required Texts

Martini, Nath and Bartholomew. (2018). *Fundamentals of Anatomy and Physiology Eleventh Edition*, Pearson Education Inc. San Francisco. [available in hardcover, softcover, & digital versions]

Department of Biology. (2020). *Biology 152 Anatomy & Physiology I Laboratory Manual*, Camosun College [digital files of the labs will be made available for students who prefer to print out the labs themselves]

(b) Optional Texts

OpenStax Anatomy and Physiology (<https://openstax.org/details/anatomy-and-physiology>): a free e-textbook

- Kapit, and Elson, *Anatomy Coloring Book*, Pearson Education Inc. San Francisco
(c) Knowledge of pre-requisite material

It is important that you are familiar with material that has already been covered in the pre-requisite courses, Biology 12 or Biology 090 and Chemistry 12. This information is necessary in order to understand concepts taught in Biology 152. Students are expected to review this prerequisite material on their own, especially those topics listed as “review” in the course objectives and chapters 2 and 3 in your textbook. This information, as it relates to topics covered in the course, is also examinable.

You will obtain information from several sources including lectures, textbooks, videos, laboratory exercises and clinical courses. Do not rely exclusively on any one, or only some of the sources. A strongly recommended approach to successfully completing this course is to review topics in your textbook before class and then consolidate information obtained in lectures with that in the textbook, after class.

4. Course Content and Schedule

This course will involve a combination of synchronous and asynchronous activities.

Synchronous:

Lab times have been scheduled by the college and were posted on Camlink when you registered.
Section D03A: Fridays 8:30am – 11:20am
Section D03B: Tuesdays 9:30am – 12:20pm

We will use this scheduled, synchronous work time primarily for small-group discussions (online). Lab exams will also be written during your scheduled lab time.

Asynchronous:

The lecture component of this course, as well as some of your work on lab assignments, will be done asynchronously. Lecture material and corresponding assignments will be posted online (on D2L) for students to work on each week. Note that even though this work is asynchronous, this is not a self-paced course. There will be topics assigned to cover each week, with corresponding assignments due most weeks as well.

Please refer to p.6 of this document for a detailed course schedule including a list of the lecture and lab topics we'll cover each week, holidays, and the dates for the midterm exam and lab exams.

5. Basis of Student Assessment (Weighting)

D2L prelabs	5%
Assignments, quizzes, etc.	10%
Midterm lecture exam (Fri, Oct 30, 5:30-7:00 pm)	25%
Lab exam #1	12.5%
Lab exam #2	12.5%
Final comprehensive lecture exam	35%

- The lecture exams will cover topics that have been discussed during lectures. Many of these topics may also be reinforced in the laboratory.
- Laboratory exams include a practical component; for example, the identification of structures from anatomical models, dissections and slides; the following web site may be useful in reviewing lab material as it provides labeled images of tissues and models examined in the lab:
website <https://sites.camosun.ca/peggyhunter>
- The final lecture exam is comprehensive, covering the entire semester.
- This semester (Fall 2020), all exams will be written online. Details will be provided on D2L.

IMPORTANT TO NOTE!

Exams must be written at the scheduled times. If a student is unable to attend an exam because of a genuine medical or other emergency, **the instructor must be notified in advance of the examination**. Late notifications will not be accommodated. Once an exam is written, there will be no rewrites or supplementals given. Upon submission of acceptable supporting documentation, the following accommodations will be available:

- if the Midterm Lab Exam is missed, the Final Lab Exam will be extended and will count for 25% of the final grade
- if the Midterm Lecture Exam is missed, a make-up Lecture Exam will be scheduled during week 11.

This exam will cover all topics up to and including week 10.

- if the Final Lecture Exam is missed, the student will receive a mark of incomplete and will have 6 weeks from the last day of classes to write the exam. However, students will not be able to begin Biology 153 or other courses in the nursing program until they are confirmed to have a minimum of 60% in Biology 152.

Vacation plans do not constitute an emergency.

CONCERNING SPELLING

Mastering the usage of anatomical and physiological terminology will be important to you for several reasons. Correct usage (pronunciation and spelling) will

- foster self-confidence and help to earn the respect of your professional colleagues
- reduce the chances of practical mistakes which may cause harm or embarrassment. Consider the difference between the terms **peroneal** and **perineal**.

You will be expected to use acceptable pronunciation and correct spelling for presentations, assignments and exams. **Penalties for spelling errors will be applied.** If writing is illegible, no marks will be given.

D2L QUIZZES AND PRELABS

Each week, your prelab activities will involve 2 components, both of which must be completed before you attend your lab meeting. The order in which you do the activities is up to you, but it is strongly recommended that once you have completed the D2L quizzes, submitted your answers and received feedback (on D2L), that you use this information to ensure that the answers you have in your lab manual are correct.

- The **prelab assignment** is described on the first page of every lab in your lab manual, and usually involves labelling diagrams, filling in tables or answering questions in your lab manual. It is suggested that you use your lecture notes or textbook to help you complete this part of your prelab work. Your instructor may ask you to submit labs to check for completion.
- **D2L quizzes** are open book and not timed. If you save your answers as you complete them, you can pause partway through a quiz and return another time if you are interrupted. Once you are satisfied with your responses, you submit the quiz for marking. **Your mark will be based on your answers the first time you submit a quiz.** However, you can redo the quizzes as many times as you wish as part of your study activities. Once you've submitted your quiz and received feedback, remember to use this information to fill in or check the answers in your lab manual. The prelab activities are designed to provide you with a quick reference and to help you come to lab meetings prepared so that you can more efficiently complete the rest of the lab activities.

STUDENT RESPONSIBILITIES

1. Students are expected to hand in any required reports or assignments on time.
2. **Late assignments will receive a penalty of 10% per day.**
3. Attendance and participation are important to ensure success. Students are responsible for ensuring that they keep up to date on class notes, assignment due dates, exam schedules, and other announcements.
4. Examinations will be completed online and must be written as scheduled. Exceptions may be made for emergencies at the discretion of the instructor and only if documentation of the illness or emergency acceptable to the department is received. The student must notify the instructor **in advance** of the examination.
5. **Students are expected to work independently on assignments unless instructed that the evaluation is based on group effort and evaluation.**
6. Students are requested to turn off cell phones during class sessions/discussions.
7. All scheduled class sessions start punctually.

ACADEMIC MISCONDUCT

Academic misconduct includes but is not limited to the following acts:

1. Giving or receiving unauthorized information to or from another student during any examination or test.
2. Obtaining or providing, without authorization, questions or answers relating to any examination or test prior to the time of the examination or test.
3. Using unauthorized sources of information during any examination or test.
4. Asking or arranging for another person to take any examination or test in one's place.
5. Plagiarizing, that is, appropriating the work of another or parts or passages of another's writing, or the ideas or language of the same, and passing them off as the product of one's own mind or manual skill.

According to Camosun College policy, the consequence for academic misconduct could result in an 'F' grade for the work involved or for the course as a whole.

6. Grading System

- Standard Grading System (GPA)
- Competency Based Grading System

7. Recommended Materials to Assist Students to Succeed Throughout the Course

You are encouraged to **consult your instructor if you require assistance or experience difficulty** with the course.

LEARNING SUPPORT AND SERVICES FOR STUDENTS

There are a variety of services available for students to assist them throughout their learning. This information is available in the College calendar, at Student Services, or the College web site at camosun.ca.

STUDENT CONDUCT POLICY

There is a Student Conduct Policy **which includes plagiarism**. It is the student's responsibility to become familiar with the content of this policy. The policy is available in each School Administration Office, at Student Services, and the College web site in the Policy Section.

8. College Supports, Services and Policies

Immediate, Urgent, or Emergency Support

If you or someone you know requires immediate, urgent, or emergency support (e.g. illness, injury, thoughts of suicide, sexual assault, etc.), **SEEK HELP**. Resource contacts @ <http://camosun.ca/about/mental-health/emergency.html> or <http://camosun.ca/services/sexual-violence/get-support.html#urgent>

College Services

Camosun offers a variety of health and academic support services, including counselling, dental, disability resource centre, help centre, learning skills, sexual violence support & education, library, and writing centre. For more information on each of these services, visit the **STUDENT SERVICES** link on the College website at <http://camosun.ca/>

College Policies

Camosun strives to provide clear, transparent, and easily accessible policies that exemplify the college's commitment to life-changing learning. It is the student's responsibility to become familiar with the content of College policies. Policies are available on the College website at <http://camosun.ca/about/policies/>. Education and academic policies include, but are not limited to, Academic Progress, Admission, Course Withdrawals, Standards for Awarding Credentials, Involuntary Health and Safety Leave of Absence, Prior Learning Assessment,

Medical/Compassionate Withdrawal, Sexual Violence and Misconduct, Student Ancillary Fees, Student Appeals, Student Conduct, and Student Penalties and Fines.

A. GRADING SYSTEMS <http://camosun.ca/about/policies/index.html>

The following two grading systems are used at Camosun College:

1. Standard Grading System (GPA)

Percentage	Grade	Description	Grade Point Equivalency
90-100	A+		9
85-89	A		8
80-84	A-		7
77-79	B+		6
73-76	B		5
70-72	B-		4
65-69	C+		3
60-64	C		2
50-59	D		1
0-49	F	Minimum level has not been achieved.	0

2. Competency Based Grading System (Non GPA)

This grading system is based on satisfactory acquisition of defined skills or successful completion of the course learning outcomes

Grade	Description
COM	The student has met the goals, criteria, or competencies established for this course, practicum or field placement.
DST	The student has met and exceeded, above and beyond expectation, the goals, criteria, or competencies established for this course, practicum or field placement.
NC	The student has not met the goals, criteria or competencies established for this course, practicum or field placement.

B. Temporary Grades

Temporary grades are assigned for specific circumstances and will convert to a final grade according to the grading scheme being used in the course. See Grading Policy at <http://camosun.ca/about/policies/index.html> for information on conversion to final grades, and for additional information on student record and transcript notations.

Temporary Grade	Description
I	<i>Incomplete:</i> A temporary grade assigned when the requirements of a course have not yet been completed due to hardship or extenuating circumstances, such as illness or death in the family.
IP	<i>In progress:</i> A temporary grade assigned for courses that are designed to have an anticipated enrollment that extends beyond one term. No more than two IP grades will be assigned for the same course.
CW	<i>Compulsory Withdrawal:</i> A temporary grade assigned by a Dean when an instructor, after documenting the prescriptive strategies applied and consulting with peers, deems that a student is unsafe to self or others and must be removed from the lab, practicum, worksite, or field placement.

Biology Department
Biology 152 Anatomy/Physiology 1: Nursing
Fall 2020 COURSE SCHEDULE

The following is a **tentative** schedule of lectures and labs. Changes may be announced in class.

	Dates	Lecture Topics (approximate schedule)	Lab Activities
1	Sept 7 (Mon) Sept 8 – 11	LABOUR DAY (College closed) Homeostasis and transport (+ cell review)	Introduction to Biol 152
2	Sept 14 – 18	Tissues (Histology)	LAB 1: Lab Safety, Anatomical Terminology and Systems Overview
3	Sept 21 – 25	Integument Intro to Nervous System + Neural tissue Neurophysiology	LAB 2: Intro to Microscopes, Cells and Epithelial Tissues
4	Sept 28 – Oct 2	Neurophysiology Central Nervous System	LAB 3: Connective, Muscle and Neural Tissues & Integument
5	Oct 5 – 9	Central Nervous System Peripheral Nervous System	LAB 4: Central Nervous System
6	Oct 12 (Mon) Oct 13 - 16	THANKSGIVING DAY (College closed) Peripheral Nervous System	LAB 5: Peripheral Nervous System
7	Oct 19 – 23	Senses	LAB EXAM #1 (Labs 1-5) (at your usual lab time)
8	Oct 26 – 30 Oct 30 (Friday)	Bone anatomy and development MIDTERM* (5:30-7:00pm)	LAB 6: Anatomy of Eye and Ear, Sensory Perception
9	Nov 2 – 6	Joints Muscle anatomy	LAB 7: Axial skeleton
10	Nov 9 – 13 Nov 11 (Wed)	Muscle physiology REMEMBRANCE DAY (College closed)	LAB 8: Appendicular skeleton
11	Nov 16 – 20	Muscle physiology	LAB 9: Muscles
12	Nov 23 – 27	Endocrine System	LAB 10: Endocrine
13	Nov 30 – Dec 4	Reproductive System	LAB 11: Reproductive System
14	Dec 7 – 11	Reproductive System Hematopoiesis	LAB EXAM #2 (Labs 6-11) (at your usual lab time)
	Dec 14 – 22	FINAL EXAM (date and time scheduled by registrar)	

* the midterm will be scheduled **outside of normal class time in the evening** on Friday, October 30th from 5:30-6:50 pm
