5. Basis of Student Assessment (Weighting)

Module Assignments: There will be 11 of these in total asking you to apply behavioural concepts to a case study (observations in field, case files, your own behavior, etc.). They take approximately 1 hour to complete. The top 10 scores count for 9% each toward your final grade for a total of 90% from assignments.

Discussions:

Discussion 1: This must be completed prior to any assignments. You'll be asked to review a TED talk discussing procrastination with and without deadlines, and you'll be asked to read a document about what it means to practice academic honesty. Details about what to cover in your discussion will be posted in the discussion forum called "Discussion 1" (worth 2% of your final grade)

Discussion 2 and 3: Special Interest Discussions: The last section will contain special interest articles on a number of subjects, ranging in topic from mental health to relationships, to sleep issues. You'll be asked to read any two of these that you find personally interesting and to contribute some observations and questions that came up for you while you were reading, as well as information on one additional research source that covers this topic. These will be submitted to an online group discussion. Each of these contributions will be worth 4%, for a total of 8% from special interest discussions. More information on the format of these contributions will be found in the discussion forum called "Discussion 2 and 3"

Please Note: All material must be submitted by 11:59 PM December, 14th in order to count toward your final grade. Because this course is self-paced, there will be no exceptions.
