2. Describe the techniques, processes and theories of modern art making.
3. Discuss the relationship between art and social change.

Required materials

- **Computer—with video and microphone capabilities.** We will be using a Collaborate (located in D2L) to teleconference. A computer with a webcam or built in camera and audio allows students to connect in real time with me and others in the class. If you are using older technology, a cost effective solution is to purchase a webcam that also has a built-in mic (it connects to a desktop computer via a USB cable).
- **Reliable internet;** additionally, for best audio, use Chrome or Safari as your browser.

Required materials, cont.

- Collaborate uses **a lot of data**. Your internet data usage will increase from working online so students are encouraged to budget accordingly and consult with their internet provider to ensure they have adequate data. Or find other ways to have adequate (and affordable) coverage for the semester.
- This course does not have a required textbook; all readings are online. However, if you love books, two survey books I recommend (in our library):
 - *Modern Art History* by Arnason and Mansfield (2010): N 6490 A713 2010
 - *Art history* by Stokstad and Cothren (2011): N 5300 S923 2011
- access to a Microsoft **Word**; Office 365 is available (free) for Camosun students—as well as 1 T space on OneDrive; <https://legacy.camosun.ca/services/its/other-services.html>

Course Content; Subject to change without notice; PLEASE CONSULT D2L FOR UPDATES

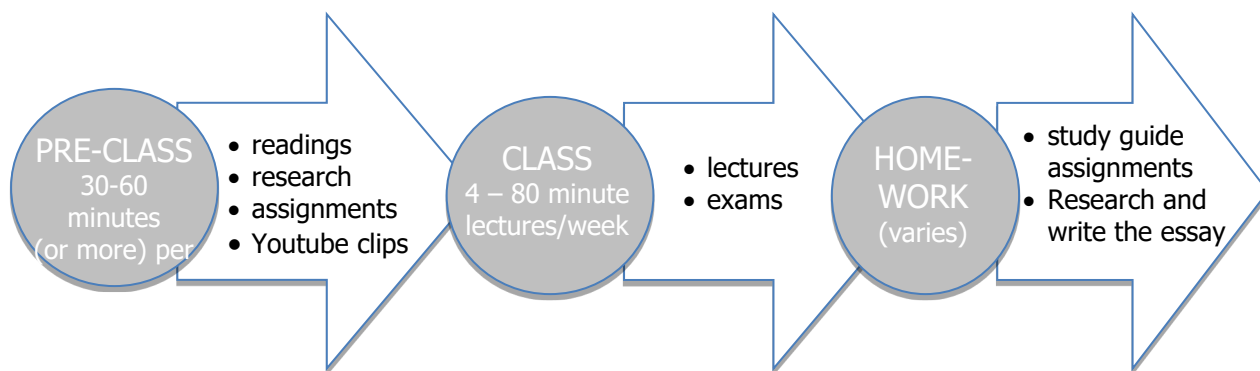

Welcome to the *fascinating* world of art history! This course explores Western art and architecture beginning c. 1750 and moving chronologically to contemporary art and architecture. We begin by examining the artistic traditions inherited from the Renaissance in order to understand what Modern artists were rebelling against; next, we examine Modern art, and we conclude the semester by looking at the Postmodern era to see the shift in thinking and art making that ushered in a new era. Although this course has been articulated to focus on the West, there will be discussions that incorporate a more global and diverse approach.

As it is clearly impossible to cover all countries, art historical periods, artists, and artistic mediums, only a select few artists and ideas will be explored. The artistic legacies we do investigate will be considered and discussed according to their meaning(s) and function(s) in relation to the specific society and/or culture that produced the art.

Please see last page of this document for specific lecture topics. Asynchronous and synchronous lectures will be recorded and posted on D2L using Course Media for students to view.

Course delivery: using a flipped classroom approach

- This course uses a **flipped class approach**, that is, students encounter material before coming to class in the pre-class assignments.
- Expect pre-class work to be around 30 minutes to 1 hour (or more) per lecture; it includes readings, research, short assignments, watching YouTube clips or videos I create. It is **vital** that all pre-class work is done before coming to class since this knowledge will be assumed. During lecture time (on Collaborate) I build and elaborate upon that information.
- The material learned is put into practice as homework in study guide assignments. Each class has homework. These assignments are not reviewed or graded by the instructor; rather, they are to assist students to synthesize information and prepare for the exams.
