## COURSE GUIDELINES & EXPECTATIONS

---

In this course we will split our scheduled time between synchronous and asynchronous learning. The second hour each day will be used to watch the videos that we will discuss during the first hour of the following class. This discussion will be first fueled by any questions that may have arisen during the videos and second by suggestions from me.

While the synchronous sessions will not be mandatory, I feel attendance and participation is ***extremely important*** in order for success in this accelerated course.

## SCHOOL OR DEPARTMENTAL INFORMATION

---

You are welcome and encouraged to make use of Camosun's Math Lab where there is an instructional assistant who can answer questions about the content of the course. Instructions on how to 'drop in' and/or make an appointment for assistance will be posted on our D2L course page. You may also use the link in the list below to find more information about the Math Lab.
