REQUIRED MATERIALS & RECOMMENDED PREPARATION / INFORMATION

Textbook: OpenStax Microbiology. Available free at openstax.org/details/books/microbiology.

Lab manual: Department of Biology. F2021-W2022. Biology 104 Lab Manual. Camosun College, Victoria. Available at the Camosun Bookstore and posted on D2L.

Lab Coat for use in Microbiology Lab only. Available for rent or purchase at the Camosun Bookstore.

Tech requirements. Students will find it helpful to have access to a computer and printer. Office 365 is freely available for Camosun students. Please download/register for these apps so that you can open my Word and PDF files (for lecture notes and assignments) and maintain the proper formatting.

Preparation for lectures. An outline of the lecture notes will be available by Sunday evening for the upcoming week's lecture and posted on the course D2L site: <https://online.camosun.ca>. Students should download and bring a copy of the lecture notes to class so that they can follow along and add to the notes during the lecture. There will also be pre-readings recommended for the lecture and a prelecture assignment posted each week on D2L. Lecture notes and pre-lecture readings/assignments can be found on D2L > Contents > Lecture > Appropriate Week.

Preparation for labs. Outlines for all labs can be found in the Lab Manual purchased through the bookstore or available on D2L. Students should read through the lab outline and complete the prelab assignment before coming to lab each week. The prelab assignment usually involves preparing a visual summary of each lab activity so that students can easily keep track of their next steps and complete the lab successfully. Hard copies of the lab outline and completed prelab assignment should be brought to lab each week.

COURSE GUIDELINES & EXPECTATIONS

Lecture and lab attendance

To get the most out of this course, students are expected to attend all classes and be on time (online options will be available for those who must self-isolate). We will often be sharing information and working in pairs or small groups as well as having whole class discussions. It is your responsibility to acquire all information given during a class missed, including notes, hand-outs, changed exam dates etc.

Assignments may be intended to be completed as individuals or as groups. The instructor will make clear which is which. Work intended to be submitted by an individual must be completed independently, keeping in mind student conduct and academic integrity requirements. Work intended for completion by a group must not be completed by an individual.

All exams must be written at the scheduled times. However, it is understood that emergency circumstances occur (e.g. illness or emergency in the immediate family); for such circumstances, accommodation in the form of an alternate or oral exam may be offered at the discretion of the instructor, provided the student:

- notifies the instructor **in advance** of the exam (**not after**), and
- provides documented evidence of the circumstance (i.e. medical certificate).

Study habits

Good and regular study habits are essential to do well in this course. You should plan on a weekly minimum of 6 hours outside of scheduled class time for the completion of readings, assignments and for general studying. Joining a study group can help make this more achievable. Lecture presentations will be uploaded to the course website. These should be used as a study guide, not as your sole source of information. You will need to write down additional key words for examples and explanations given during lecture and review text and videos to support your understanding. It is also recommended practice to transform lecture notes into a study-friendly format after each lecture, incorporating additional information from your textbook. Study these notes before the next class to prepare yourself for new material, which will often build on previously covered material. **Please take advantage of office hours if you need extra clarification and help.**

STUDENT RESPONSIBILITY

Enrolment at Camosun assumes that the student will become a responsible member of the College community. As such, each student will display a positive work ethic, assist in the preservation of College property, and assume responsibility for their education by researching academic requirements and policies; demonstrating courtesy and respect toward others; and respecting expectations concerning attendance, assignments, deadlines, and appointments.
