EVALUATION OF LEARNING

DESCRIPTION	WEIGHTING
Labs	5%
Assignments	15%
Tests	30%
Lab Final	10%
Final Exam	40%
	TOTAL
	100%

If you have a concern about a grade you have received for an evaluation, please come and see me as soon as possible. Refer to the [Grade Review and Appeals](http://camosun.ca/about/policies/education-academic/e-1-programming-and-instruction/e-1.14.pdf) policy for more information. <http://camosun.ca/about/policies/education-academic/e-1-programming-and-instruction/e-1.14.pdf>

COURSE GUIDELINES & EXPECTATIONS

R Labs: This course includes R lab sessions designed to familiarize students with the use of a computer as a tool for statistical analysis. *You will need to work through a lab tutorial in R in each lab.* A lab assignment will be assigned for each lab session. Understanding each lab is essential for succeeding the Lab Final Examination which will take place during our usual lab session on **April 1**.

Calculator policy: A Sharp EL-531 scientific calculator is required. This is the *only* calculator that will be allowed for tests and the final examination. This calculator is available at the Lansdowne Bookstore, and some other stores.

Homework: The homework for this course will include 1) Homework sheets (Assignments), 2) R lab assignments, and 3) Suggested exercises posted on D2L. *In order to get a full understanding of the course materials, which usually leads to a good grade, it is necessary to mindfully complete all three sets of homework. It is essential to review notes and do homework each week and to keep up consistently. **Cramming does not work for this course.***

Attendance

Showing up to class is the easiest and most important thing you can do to help succeed the course. Keeping up is an essential part of any statistics course as much of the material builds on itself. If you feel yourself falling behind at any point during the term, then please do not hesitate to come speak to me.

Missed Test Policy: Students are expected to make every reasonable effort to write the test at the scheduled time. **A missed test usually counts as a 0**, so if for any reason it appears that you may miss a test,

- **before the test**, talk with the instructor about missing the test, unless an unforeseen emergency makes this impossible, in which case leave a comprehensive message.

- assuming that you qualify for a missed test (for instance, medical or compassionate leave), the weight of the test will be moved to the final exam. There will not be any rewrites of tests.

Please inquire if you have any questions or concerns about your particular situation.

Desire2Learn (D2L)

This class has the assistance of D2L, an online course management system. All course related materials, including lab manuals and data sets, worksheets and solutions, practice problem sets and solutions, tests solutions, grades, and announcements will be available on D2L. It is your responsibility to subscribe to the *notifications on D2L* or check it regularly.

SCHOOL OR DEPARTMENTAL INFORMATION

Math Lab: Math lab E224 is staffed with math tutors available for free help. It is a great idea to do your homework there and get help whenever needed.
