## COURSE GUIDELINES & EXPECTATIONS

Course content and schedule is posted on D2L. Please consult the first module for full details. The course is broken in to 14 modules. Each week, there will be a topic webpage that outlines the following for each module: learning outcomes, assigned readings and resources, learning activities and due dates.

Readings are an essential part of this course – they provide depth and context that are important to your understanding of the course material, and they will be tested. Specific reading assignments are listed in the weekly module. For each textbook chapter, there will be a quiz on D2L.

There are two exams for the course. Both will be open-book, take home style exams with a time limit. Both will be conducted on D2L.

Generally, there will be one assignment completed per lecture topic. Lab assignments will focus on applied learning in the area of geography related to the course. Podcasts will be related to the topic of Canadian geography and will be assessed by online quiz or discussion. There will be one term project for the course. Details will be provided prior to the midterm.

The lab/podcast assignment due date will be at the beginning the subsequent lab period, unless otherwise instructed. Late assignments will not be accepted after I have returned them marked. Anyone cheating or copying work will receive a mark of zero on the assignment.

Collaborating and supporting your peers is encouraged. Copying, plagiarism and/or cheating is not permitted. Please familiarize yourself with Camosun's student conduct policies. This is also posted on D2L.
