This course is graded by the [Standard Grading System](#).

## COURSE GUIDELINES & EXPECTATIONS

---

Learners must demonstrate competence and be approved by the lab instructor for each skill before being able to perform the skill in nursing practice. If a learner misses a lab class, it is the learner's responsibility to study the theory and to practice the missed skill. Students who miss a lab (skill) are required to arrange a time to demonstrate competence in the skill and be approved by the lab instructor before performing the skill in nursing practice. Students have until the end of the exam period to demonstrate the skill, otherwise their grade for the lab course will be an F.

To honour BCCNM professional standards, the Health Professions Act, and our legal affiliation agreements with health authorities, students cannot practice skills and assessments in the nursing practice areas until they have learned the theory and practiced that skill or assessment in the nursing lab.

### Lab Expectations and Rules

The labs are heavily used. The listed expectations and rules will make the labs run smoother for everyone.

1. The lab must be treated and maintained like a hospital nursing unit.
2. Students must adhere to the clinical attire and dress codes identified in the HHS and [the program Handbooks](#).
3. Dolls, beds, bedside tables, and medication carts must be left clean, tidy, and free of garbage at the end of each lab.
4. At the end of each lab, the teacher basket will only contain items for reuse. Do not place garbage in the teacher baskets.

5. Do not “borrow” materials from other teacher baskets. Extra supplies are primarily located on the marked cart and secondarily on the room storage shelves. Instructors can alert lab staff if supplies are needed.
6. Please re-use and recycle when possible. Lab staff will advise what materials can be recycled or returned for reuse. Place All SHARPS in the sharps containers.
7. Items intended for sharing across lab groups are to be replaced neatly on the appropriate shelves.
8. Absolutely NO Food or Drink is permitted in the labs, with the exception of water in a sealed container. Water containers must be kept in the center of the room, away from the bedside.
9. When supplies are running low, please notify the instructor who can then notify the lab staff.

Thank you for your cooperation in the above listed rules and expectations.
