COURSE GUIDELINES & EXPECTATIONS

Terminology

In course materials, we refer to “patients,” “clients,” and “persons” interchangeably to reflect the historic societal influences that have shaped the history of caring for individuals. We recognize that most nurses have a preference and that none of the above terms adequately address all the possible situations related to nursing care.

Weekly Preparation

You are provided with a required reading list for each module. Most of your readings are from your textbooks listed below, with some additional articles and websites. It is very important that you acquire these resources. Additional readings may be provided in class in the form of handouts, or you may be directed to resources from the library or online. Use the weekly learning outcomes to inform your reading and to prepare for your exams and assignments. Please note that additional material may be presented in class beyond the readings and is examinable.

SCHOOL OR DEPARTMENTAL INFORMATION

Students are required to read and are accountable for following College policies and practicum guidelines as described in the BSN and HHS Student Handbooks.
