Ecological Systems Development Profiles

Value: 22% each x 4

Due: January 27, February 17, March 10, March 31

Length: Approximately 1400 – 1700 words each

DIRECTIONS:

Life cycle issues are best understood in terms of how they happen in people's lives – your own and others. You will be creating an overview of systems involved at various stages of development. Using personal knowledge (either from your own life story or from someone you know), you will be applying the information presented in the text and in class to specific real life examples.

Review each chapter to consider developmental milestones and the impact of different systems on development. You will be writing four papers, one for each of the following life stages:

1. **Adolescence (approximately age 13 – 19)**
Based on chapters 11 & 12; Erikson's Identity versus Role Confusion
2. **Early Adulthood (approximately age 20 – 39)**
Based on chapters 13 & 14; Erikson's Intimacy versus Isolation
3. **Middle Adulthood (approximately age 40 – 64)**
Based on chapters 15 & 16; Erikson's Generativity versus Stagnation
4. **Late Adulthood (approximately age 65 - Death)**
Based on chapters 17 & 18; Erikson's Integrity versus Despair

Each of the four assignments should be approximately 1400 - 1700 words, in APA formatting, and structured to cover the following points:

1. (*approximately 50 - 100 words*) Brief introduction to your paper
2. (*approximately 600 – 700 words*) Provide a summary of key points from the reading.
Possible questions to answer: What stands out for you as most significant from these two chapters? Why are these points noteworthy? How is this life stage the same or different than the one before it? Do you have any critical analysis of these chapters?
3. (*approximately 700 - 800 words*) Please refer to Bronfenbrenner's Theory in Boyd, Bee, Johnson, p. 51. Choose a person that you know who is in this life stage. (it could be yourself)
 - a. Describe this person's general biological/physical/cognitive/temperamental qualities at this stage. In what way do you think these qualities influenced this person's experience during this phase? How does this fit with developmental theory from our text? (*individual context of developmental stage*)
 - b. Describe the people that had the most influence on this person during this phase. Why and how were they influential? How do you think this individual had an impact on

- the people around them? How does this fit with developmental theory from our text? (*micro/mesosystem*).
- c. Describe the kinds of structural factors that had an influence on this person during this phase. What sorts of organizations/ services/ institutions/community structures/ programs/ policies/ laws etc. had an effect on this person? How and why were they significant? Did this person impact their environment at all? (*exosystem*).
 - d. Describe the broader cultural and societal norms, values and beliefs that were an influence on this person's life and development during this time (could be dominant and/or sub-cultural expectations). In what way were these significant? (*macrosystem*)
 - e. Describe any family, environmental, generational or historical significant events that occurred at some point in this person's life and may have had an ongoing impact on them during these years (*chronosystem*)
4. (*approximately 100 - 150 words*) Summarize this paper and reflect on your overall learning about development from doing this assignment.

Makeup Assignment for any missed class:

Due: by midnight the day before the following class after the absence; please submit electronically.

You can choose to do this assignment if you want to avoid missing class participation marks. You need to have a minimum five minute discussion (in person or on the phone) with at least two students in your class to learn their perspective of the important aspects of the session missed. Ensure you identify which students you have spoken to by using their name in your write up. Complete and submit a 500 word write up which talks about the key elements that were missed in the class, along with your own reflections on the subject.

EVALUATION OF PARTICIPATION INCLUDES:
