Assignment 1: Learning Journals X 10: (approximately 700 - 800 words each)

Due: **Wednesdays**, by midnight

Document your learning from your practicum experiences and from seminar discussions. Use the feedback you receive from your instructor to help improve your practice, and to deepen your reflective process in your journals. It is recommended that students take a few minutes at the end of their practicum time to record their thoughts immediately, while they are still fresh. Write in first person, and focus in on a particular aspect of your learning since the last journal.

Each learning journal needs to follow the format below and include an APA reference, linking theory with practice. ***Please also include any other reflections from the week that seem relevant and significant to you in addition to the focus topic.***

Journal one

Part one: Get to know your agency: Reflect on your initial impressions of this practicum setting, looking at your own internal context, the interpersonal (micro/meso) context, the structural (exo)context, the macro context and the chrono context. Use the following suggested questions to help guide your responses:

1. Chrono: What is the history of this agency? Why did it come into existence? Describe any defining or impactful events that have helped to shape who they are and what they do.
2. Macro: What are the beliefs and values of this agency? What assumptions do they make about people and society? How does this impact the way they deliver service?
3. Exo: What is the organizational structure of this agency? How is it funded? What legislation and policies help to guide their work? How are decisions made? What is the physical set up like in terms of space for staff, persons being served, activities, etc.?
4. Micro/meso: What are the relationships like? Among the staff? Between staff and service recipients?
5. Internal context: What are your thoughts and feelings related to your first week in practicum and in response to your above observations?

Part two: Setting goals: In addition to the goals you have of meeting the learning outcomes for this course, consider what other personal goals you have for yourself this term. Reflect on goals you had for yourself after completing your previous practicum. Do these still apply or do they need to be refined now that you are in your new setting? What knowledge, skills and values are necessary for you to be effective in this practicum setting specifically?

1. Develop *at least three specific goals* for your own personal development, being as precise as you can (consider SMART goals)
2. Why are these goals appropriate for you at this time and in this setting?
3. What will you need in order to help you meet these goals?

Journal two

Choose **one of the seven learning outcomes as a focus** for this journal. By the end of the term you need to focus one journal on each of the seven outcomes. Follow the four steps of the Integration of Theory and Practice (ITP Loop) model, using the suggested questions to help guide your responses:

1. **Retrieve:** Choose one event/incident/activity/interaction/learning opportunity from this week that stands out for you as significant. Be prepared to look at it through the lens of one of the learning outcomes. This step includes an objective gathering of facts and information from a specific, concrete experience. Do not form opinions or draw conclusions at this point. What did you see? What did you hear? What did you or other people do? What other relevant information is there that you can objectively make note of, such as from the internal context (if there is a focus person in this situation), the micro/meso context, the exo context, and/or the macro context?
2. **Reflect:** This step is an opportunity to develop greater self-awareness and includes a subjective response to the above situation. How did you feel? What thoughts caused you to feel that way? What are your personal assumptions and beliefs that came up or were triggered for you in this situation? How does this situation touch on your values and personal history or similar experiences you have had? How have your subjective feelings and thoughts influenced your actions in this situation? What did you do well? What would you do differently? What other choices did you have? What will you change? How have you made sense of this experience in light of past experiences and future practice? What internal and external factors influenced your decisions? What were you trying to achieve? What are the consequences of your actions for yourself and others? How did others feel? How do you know how others felt?
3. **Relate:** This step is the conscious application of theory to practice. You need to explicitly link this situation with knowledge gained from readings, coursework etc., or do some additional research to help shed light on this experience. Choose one of the seven learning outcomes that most applies to this situation to use as a lens for deeper understanding.
4. **Respond:** This is an action step. Using the knowledge, ideas and insights uncovered above, develop a specific plan for how you will use this information in the future. Answer the questions: What are the major lessons that I can take from this experience? How might I use these lessons in the future when I encounter a similar situation?

Journal three

Repeat instructions given in journal two using a different learning outcome.

Journal four

Repeat instructions given in journal two using a different learning outcome.

Journal five

(Note: Switch this content with another week if you have not had your mid-term meeting yet)

Review the goals you set for yourself at the beginning of practicum.

- Have you accomplished these? What have you done to work towards these goals? What has stopped you?
- Based on the mid-term evaluation process (including input from both your instructor and supervisor), please identify three specific goals that you wish to work on for the remainder of this placement and how you plan to achieve them.
- What support do you need to achieve these goals? (NOTE: These may be new goals or they could be revisions of the goals you set at the beginning of practicum)

Journal seven

Journal eight

Journal nine

Journal ten
<p>Summarizing learning: Review the goals you set for yourself at mid-term. Have you accomplished these? What have you done to work towards these goals? What has stopped you?</p> <ul style="list-style-type: none"> • What are the top 5 things you learned during this practicum experience? • What practice skills are you best at? • Based on the final evaluation process (including input from both your instructor and supervisor), please identify three specific goals that you plan to carry forward into your future work/studies in Human Services. •

Assignment 2: Assessment, Planning, Implementation, Evaluation (APIE) (three part assignment)

You can choose to base this assignment on information gathered for one of the above learning outcome journals or a different situation. Conversely, you can use the information gathered from this assignment as the basis for one of your learning outcomes journals and/or learning outcome examples in workbook.

Students are to engage in assessing, planning, implementing and evaluating activities during their practicum (A.P.I.E.). Professional, objective observational and recording skills are expected throughout this assignment.

- **Part one: Assessment** (550-600 words): Choose an individual or situation in your agency as a focus for this assignment. Write one paragraph to briefly describe the context of the situation. Using information gathered from various sources, including objective observations, discussions, files etc., do an *Assessment* of the situation. You can use the chart below as a template. Your assessment should consider each of the following perspectives:
 - **Internal context** (Developmental, biological, physical, emotional, cognitive – *include both challenges and strengths*)
 - **Interpersonal context** (Micro and meso system relationships - *include both challenges and strengths*)
 - **Macro and exo systems context** (i.e. community, employment, access to resources, cultural assumptions and values - *include both challenges and strengths*)

<i>Multi-lens Assessment</i>	Issues/Challenges	Strengths/Assets
Internal context		
Interpersonal context		
Macro/exo systems context		

- **Part two: Planning** (550-600 words): Based on your assessment, plan (or assist with) an activity/interaction/intervention to address your situation. The plan needs to demonstrate a foundation in at least one of the above perspectives. Discuss this plan with your field supervisor. The “activity” you plan can range from a minor intervention (i.e.: a plan for interacting with a particular individual) to a larger activity (i.e.: planning for a group event). Use the following format to help formulate a plan:

1. **Step one:** work *with* the individual(s) as much as possible
2. **Step two:** prioritize issues then choose a focus for planning
3. **Step three:** identify alternative solutions for target issue (ie: brainstorm potential interventions considering strengths and challenges)
4. **Step four:** choose a strategy (action must be realistically achievable)

Submit a paper that outlines your list of possible actions, your reasons for choosing a particular action, and a brief description of what you plan to do.

- **Part three: Implementation and Evaluation:** (450-550 words) Implement your planned activity/interaction/intervention. You may be assisting another staff person with this, or doing it yourself. Submit a brief evaluation of your activity to your instructor answering the following questions:
 - Briefly describe your action taken.
 - What worked well? (How do you know?)
 - What didn’t work well? (How do you know?)
 - What would you do differently next time?
 - What might be a follow-up action you could take?

Missed Class Makeup Assignment (mandatory for any missed seminar):

You need to have a minimum five minute discussion (in person or on the phone) with at least two students in your class to learn their perspective of the important aspects of the session missed (both large group and small group). This will also give you the opportunity to offer supportive feedback to them as well (peer support is one intended outcome of seminar small group). Ensure you identify which students you have spoken to. Complete and submit a 500 word write up which talks about the key elements that were missed in the class, along with your own reflections on the subject. Please submit this write up to your instructor before next class.
