## 5. Basis of Student Assessment (Weighting)

### Assignments and Evaluation of Learning

Projects	45%
Participation	15%
Lab Skills	15%
Final Exam	25%

- All assignments are to be submitted to D2L as Word documents.
- Late assignments will lose 5% of the total possible grade per day, unless otherwise pre-arranged in writing with instructor.
- All coursework must be completed to fulfill the requirements of this course.
- The passing grade for CSEA/EACS 120 is 60% or “C”.

### Projects

45% of your final grade will be determined by the completion of 3 assignments. Individual and group assignments will be used to demonstrate your integrated understanding of health and wellness issues and skills.

### Participation

15% of your final grade will be determined by your participation in the classroom and lab. The following are examples of criteria that will be considered when this grade is being calculated:

- Arriving on time, returning from breaks on time, and staying until the end of the class
- Coming to class prepared and well-researched for the topics being discussed; i.e. completing required reading(s) before class
- Actively participating and contributing to classroom discussions
- Actively participating in lab sessions—not just “supervising” or “observing”
- Being respectful of the ideas and opinions expressed by others and recognizing that everyone learns differently
- Refraining from disruptive behaviour i.e. background chatter, eating during class, using cell phones, texting, leaving classroom while class is in session, sleeping during class, etc.
- Completing non-graded in-class assignments

### Lab Skills

15% of your final grade will be determined by your satisfactory demonstration of skills and procedures taught in class and lab. Skills will be checked throughout the semester by instructor and/or instructional assistant.

### Final Exam

25% of your final grade will be determined by a final written exam. Content will include coursework from both classroom and lab experiences. The format of the exam will be a combination of short answer and case study questions.

## **Test and Examination Procedures**

There are policies regarding written test and examination procedures including late arrivals and missed tests. Please see the Health and Human Services Student Handbook item 5.4 for Test and Examination Procedures at <http://camosun.ca/learn/school/health-human-services/student-info/index.html>

## **Written Assignments**

Assignments are due before 2400 hours (midnight) on the assigned day unless otherwise specified. Assignments about patients, residents or clients must be completed using the individual's initials only. Unless otherwise directed by individual course outlines, assignments must be: word processed, double spaced, font meeting APA 7th edition guidelines, with a title page and a reference list. Students requiring an extension for the due date of an assignment must negotiate with the instructor, at least 48 hours before the due date. Assignments submitted late without an approved extension will result in a 5% deduction in mark for each day late.

## 6. Grading System
