4. Course Content and Schedule

This course is a combination of community observations taking place on Fridays and seminars on Mondays. Weekly course content and a detailed schedule will be handed out in class.

5. Basis of Student Assessment (Weighting)

A detailed description of assignments will be handed out and discussed in class.

Assignment Policy

Final grading for this course is either a "COM" for Completed or "NC" for Not Completed.

Each assignment must be completed at a C+ level or higher to be considered "complete". NC assignments must be re-written and submitted within one week.

Assignments are expected on the due date. Extensions must be negotiated with your instructor prior to due dates. Late assignments submitted in the last week of term will not have the opportunity for rewrites.

You need to complete work in all areas. Assignments will not be accepted after the last day of term, unless an extension has been granted prior to the due date. Assignments not received by this time will receive "NC".

Last day to withdraw from courses without a failing grade is **November 7th**. If you withdraw by the posted withdrawal date, you will not be penalized.

NOTE: Students must complete all assignments to be eligible for a grade.

Attendance

Students are required to attend all scheduled community observations in the field and all classroom seminars unless they have a legitimate medical reason.

Community Observations: Students must notify *both* the mentor and instructor prior to any absences (i.e. if you are suddenly too sick to attend community observation, *both* the centre and your instructor must be contacted that morning). As all missed hours will need to be made up, students must connect with their college instructor within one week of absence to make a plan for make-up hours.

Seminar Class: Students are requested to notify their Instructor of any absences. Students who miss class are responsible for the material and assignments covered in class.

Repeated absence from class can affect a final grade. If a seminar is missed students are required to complete a "missed seminar" assignment and hand it in **within four calendar days of the missed class.**

Due to the short and intense nature of the ELC program, classes are planned as a continuum for building the skill and knowledge required. Classroom experiences and participation are a major part of that competency development; therefore, consistent attendance is expected.

6. Grading System

- Standard Grading System (GPA)
- Competency Based Grading System
