2. Course Description & Intended Learning Outcomes

Students examine the importance of environment to children's growth and learning and begin to explore this in the context of indigenous ways of being, knowing and learning. Students also explore the impact of residential schools and on-going colonization with a focus on the skills of reconciliation. Emphasis is placed on using pedagogical narration to understand and respond to children's interests and needs. A variety of materials and learning experiences are explored that support early learning and respect for children and families.

Upon successful completion of this course, you will be able to:

- explain the importance of play to children's learning.
