- Students are expected to actively participate in all planned activities, including the mindfulness practices that will occur at the beginning of class.
- Repeated absences, including not attending the full block of time as per the previous bullet, will jeopardize successful completion of the course. Students will not pass this course if absent for more than 3 classes or 9 hours of instruction.
- Late arrivals and all absences must be communicated prior to the beginning of the class.
- Students are required to demonstrate positive interpersonal behaviour in the classroom, including listening and acknowledging others. Students are also required to demonstrate emotional maturity, respect, and teamwork. Students are also required to be respectful in all email communications.

Technology Usage

- Students may not use cell phones during scheduled class time.
- The use of any electronics (laptop, iPad, tablets) must be approved by the instructor. These may only be used for note taking and may not be used if they are a distraction to the instructor or any of the other students. All other items of distraction are not permitted.

- CCA assignments will not be granted a grade after a class has been completed in which the student is present. Details of this will be provided on the first day of classes.
- In the case of an absence due to illness, or an exceptional circumstance, the assignment must be emailed to the instructor by the start time of the class to demonstrate that it has been completed, otherwise it will accumulate late marks as noted in the second bullet, and a note from a doctor or
