MHA 130
Health Care Basics
Winter 2016

COURSE OUTLINE

Description

This course provides an introduction to holistic lifestyle and health care planning, including developing personal care assessment skills and applying a stress-vulnerability model. Basics of medication and universal precautions will be examined.

Ω Please note: This outline will not be kept indefinitely. It is recommended students keep this outline for their records, especially to assist in transfer credit to post-secondary institutions.

1. Instructor Information

4. Course Content and Schedule (schedule for current course to be provided by instructor)

This course is delivered through a traditional face-to-face classroom setting supported with online D2L tools and supplemental resources. Learning formats in Mental Health & Addiction (MHA) Program courses will include discussions, presentations, peer interactions, student-directed research, and critical thinking activities.

It is expected that students arrive to class prepared to contribute their knowledge and insights, having completed pre-class expectations to create a positive learning environment. Because the MHA Program prepares graduates for professional roles in the community, students are expected to demonstrate positive interpersonal behavior in the classroom and online, including listening and acknowledging others, emotional maturity, respect, and effective teamwork.

Participation

Due to the short and intense nature of the MHA program, classes are planned as a continuum for building the skill and knowledge required to meet the competencies for working in community mental health & addiction services. Repeated absence from class will be discussed with the student and may jeopardize course completion if learning outcomes are not met. Students will be expected to complete learning activities to demonstrate outcomes for missed class content.

Evaluation of participation includes:

- Pre-class preparation, including reading assignment materials before class
- Arriving to class on time and consistent attendance
- Constructive and appropriate comments in class and online
- Active participation in group work, online submissions, and classroom activities
- Active and respectful listening and online dialogue
- Considerate behaviour towards others in the classroom and online

5. Basis of Student Assessment (Weighting)

1. Health & Nutrition Analysis Assignment		10%
2. Behaviour Change Assignment #1 & #2	20% each	40%
3. Exam #1 & #2	15% each	30%
5. Homework Assignments		10%
6. In-class Reflections		10%

Details of assignments will be provided in class and/or online. Students are responsible for maintaining a hard or electronic copy of all submitted work. **All** assignments must be submitted and achieve a grade of “**C**” or higher for successful completion of the course.

Late Policy

In exceptional circumstances, students may arrange with the instructor for an extension of an assignment **before** the due date. A professional’s note will be required. Students who have a *Letter of Accommodation* from the Disability Resource Centre may have previously identified arrangements regarding assignment submissions as negotiated with the instructor.

Assignments submitted in hardcopy must be in by the start of class on the due date. In fairness to all students, late assignments will be deducted 5% per day after the first five minutes of class. **If** you anticipate a late arrival to class, ensure you have emailed the assignment to the instructor to meet the deadline and avoid a deduction for lateness (submit the hardcopy at the break).
