2. Course Description and Intended Learning Outcomes

Course Description:

Learners will develop knowledge regarding complex health challenges in the area of maternal health, urgent and emergent situations, and complex medical and psychiatric conditions, across the lifespan. Learners will acquire skills in clinical reasoning; priority setting in unstable, urgent, and emergent situations; managing and leading care in complex patient presentations and situations; engage in person-centered Interprofessional contexts; and facilitating the preservation of personhood in the midst of crisis.

Intended Learning Outcomes:

- a) apply the nursing process, clinical reasoning, and leadership skills to patients of all ages experiencing diverse, complex, unstable, urgent, and emergent health challenges.
- b) critically evaluate complex, unstable, urgent, and emergent situations for delegation and consultation in the Interprofessional health care setting.
- c) develop strategies to preserve personhood in the context of complex health challenges.
- d) evaluate the health care setting using Quality and Safety Education for Nurses (QSEN) competencies to advocate and negotiate safe care in the context of crisis and complexity.
- e) recognize culturally competent care for individuals and families experiencing complex, unstable, urgent and emergent health challenges.
- f) recognize the role of vigilance and ongoing monitoring necessary for evolving and rapidly changing patient conditions.
- g) integrate pharmacological knowledge in the context of diverse complex health challenges.
- h) use pertinent vocabulary, medications, and laboratory values related to complex health challenges in the health care setting.
- i) integrate knowledge of colonization with Indigenous peoples' experience of acute illness.
- j) plan culturally safe care to individuals and families who are experiencing complex, unstable, urgent, and emergent health challenges.

2. Competency Based Grading System (Non GPA)

This grading system is based on satisfactory acquisition of defined skills or successful completion of the course learning outcomes

Grade	Description
COM	The student has met the goals, criteria, or competencies established for this course, practicum or field placement.
DST	The student has met and exceeded, above and beyond expectation, the goals, criteria, or competencies established for this course, practicum or field placement.
NC	The student has not met the goals, criteria or competencies established for this course, practicum or field placement.

B. Temporary Grades

Temporary grades are assigned for specific circumstances and will convert to a final grade according to the grading scheme being used in the course. See section F of the [Grading Policy](#) for information on conversion to final grades, and for additional information on student record and transcript notations.

Temporary Grade	Description
I	<i>Incomplete:</i> A temporary grade assigned when the requirements of a course have not yet been completed due to hardship or extenuating circumstances, such as illness or death in the family.
IP	<i>In progress:</i> A temporary grade assigned for courses that are designed to have an anticipated enrollment that extends beyond one term. No more than two IP grades will be assigned for the same course.
CW	<i>Compulsory Withdrawal:</i> A temporary grade assigned by a Dean when an instructor, after documenting the prescriptive strategies applied and consulting with peers, deems that a student is unsafe to self or others and must be removed from the lab, practicum, worksite, or field placement.
