This course is graded by the [Standard Grading System](#).

COURSE GUIDELINES & EXPECTATIONS

Learners must demonstrate competence and be approved by the lab instructor for each skill before being able to perform the skill in nursing practice. If a learner misses a lab class, it is the learner's responsibility to study the theory and to practice the missed skill. Students who miss a lab (skill) are required to arrange a time to demonstrate competence in the skill and be approved by the lab instructor before performing the skill in nursing practice. Students have until the end of the exam period to demonstrate the skill, otherwise their grade for the lab course will be an F.

To honour BCCNM professional standards, the Health Professions Act, and our legal affiliation agreements with health authorities, students cannot practice skills and assessments in the nursing practice areas until they have learned the theory and practiced that skill or assessment in the nursing lab.

Lab Expectations and Rules

The labs are heavily used. The listed expectations and rules will make the labs run smoother for everyone.

1. The lab must be treated and maintained like a hospital nursing unit.
2. Lab coat or clean nursing uniform top must be worn in lab.
3. Closed toed shoes **must** be worn, at all times, by all faculty and students in the labs. This is a WorkSafe BC requirement.
4. Dolls, beds, bedside tables, and medication carts must be left clean, tidy, and free of garbage at the end of each lab.
5. At the end of each lab, the teacher basket will only contain items for reuse. Do not place garbage in the teacher baskets.
6. Do not "borrow" materials from other teacher baskets. Extra inventory can be found on the back counter and cabinets. If more supplies are needed, please ask the lab assistants.
7. Please re-use and recycle when possible. Place **All SHARPS** in the sharp's containers.
